C&D GOLD SHOW TREMENDOUS STRENGTH IN ATLANTA SALE

All Coin Dealers Finally Agree

The Market in Depth

Coin dealers agree? Yes. The Waverly Hotel in Atlanta, Georgia is by far the finest hotel on the coin show circuit. Not only that, but the auction room was a theatre with cushioned seats and a pull out table for writing notes. The host auction company, Mid-American Rare Coin Auctions, Inc., provided champagne and soft drinks for bidders and in conjunction with the coin show host, Georgia Numismatic Association, provided a dinner buffet for bidders and dealers alike.

Both the show and auction were active and attendance was substantial by dealers and public alike. The usual materials were on want lists with dollars, gold, type, and commems leading the way. Joining the most active list are "Brown" and "Blue" Ike dollars. Five or six major investment houses are buying these up by the thousands. The auction provided enough information on Charlotte and Dahlonega gold to arrive at approximate bids in various denominations:

In the Mid-American Auction there was one of the most incredible Indian Head cent ever seen. It was described as MS-69/69. If this was the standard by which everyone bought Indian cents, all the others would never sell. This 1899 realized $1155. There was a run of 1937 proof Buffalo nickels which sold from $1155 to $1595. They graded PR-63 and PR-65; all had tiny black fly specks. CDN's position is that Buffalo's, along with 3-cent nickels, Shield, and Liberty nickels cannot have spots of any kind and still qualify for the '65' grade. A gem PR-65 1880 quarter brought $6050. This is a low mintage date with only 1355 proofs struck. The low mintage coins from 1879-1891 are considered rare, but usually do not bring a premium in proof.

Speaking of coin shows . . . the always active Long Beach Coin Show is upon us as hundreds (or more) of dealers from all over the country visit the California area, attempting to locate fresh material that meets their standards and sell to the many attendees of the show. In addition, there are two major auctions to look forward to this week. One being the Heritage Auction during the show and the other Superior Galleries commencing Monday, June 3rd in Hollywood.

This Week's Market

CENTS: Except for a few individual BU rolls of Lincoln cents being offered in the bid/ask range this area of the market remains rather subdued. Most dealers seem uninterested in rolls of speculative cents.

NICKELS: Several BU Jefferson rolls remain on want lists with a few even higher this week. The 1945-P war nickel roll is higher at $185, while the 1940-D and S are up to $51 per roll.

DIMES: Original BU rolls of Mercury dimes are once again on many want lists, some at higher levels. Many dealers feel these rolls are underpriced in relation to other rolls of the same era, especially Walking Liberty halves.

BU Roosevelt dime rolls remain active as dealers continually seek out any or all dates. This week finds the 1948-P higher at $320, as is the 1958-P at $84. The common silver rolls 1963-64 are higher at $36. Minimum buys for proof silver rolls is now $55.

QUARTERS: Early rolls of BU Washington quarters are rarely offered, but when they are encountered, the seller usually wants "ask" or more. The 1943-P roll is higher at $290 "bid". The 1958-P is at a lower $190. And, the 1963 & 64 rolls are up to $72 "bid".

HALVES: Original rolls of Walking Liberty halves are advancing again after a few weeks of constant activity at last week's levels. Joining the list of 1941-47 issues (short set) are the 1939-P, D, S and 1940-P rolls at higher "bids". All of the 'P' mints are higher as are most of the 'D' mints. The 1944, 45, and 46 'S' mints are also higher.

BU Franklin rolls remain active at current levels, although a couple of deals of single rolls have been offered recently at the bid/ask levels. Original BU rolls of 1964 Kennedy halves are wanted in large quantity at a higher $73 "bid".

DOLLARS: A large number of sales have been reported for MS-64 silver dollars. Many dealers are buying these dollars for the telemarketing companies, who in most cases are not professional numismatists, but are professionally sales oriented. They are geared to selling coins over the telephone to non-numismatists. These companies sell thousands of dollars of numismatic coins everyday with the result that these coins will be off the market for many years to come. The MS-64 column shows a scattering of "plus" signs for the most popular of these silver dollar dates.

Properly graded MS-65 prooflike silver dollars are a rare commodity. This is pointed out again as there are a rash of "plus" signs in this column. CDN recently shared conversation with an eastern collector. He travels to as many shows as he has time for looking only for MS-65 prooflikes which fit into his set. He does not sell coins; just buys the ones that make the grade. He says he may find just two or three coins in a three month period attending 5 or 6 shows.

The 1973-S 40% proof Ike is the only silver Ike which has not begun moving upward. All the rest are being bought and sold at new, higher levels. Most are being bought by a few investment houses and sold to clients. It is felt that these will be off the market for a number of years.

PROOF SETS and MINT SETS: Proof sets were a little quiet this past week, but don't take this as a sign of weakness. There were no reported offerings of sets at discounted levels, with the exception of the 1985-S which is now available in large quantities and can be purchased at the mints.

A few mint sets registered higher "bids" as some dealers try and increase their holdings. Those with higher "bids" are 1958, 59, 63, and 1976-S (3 pc. 40%).

COMMEMORATIVES: MS-65 commems are once again showing many "plus" signs. Several of these issues continue to increase because they just are not easily found in MS-65 or better. The following issues normally are either weakly struck or characteristically baggy: Isabella, Lafayette, Alabama, Cincinnati, Hawaiian, Hudson, Maryland, Monroe, Sesquicentennial, and Fort Vancouver.

TYPE: Proof-65 and MS-65 type coins have registered a few advances, but for the most part, these advances are the result of one coin company. Most other bidders are content at current levels for MS-65 and PR-65 type coins. A few dealers are beginning to actively pursue the MS-60 to MS-63 grade in type. There are large quantities of this material available, so the buyers are looking for coins with "eye appeal".

GOLD: MS-60 to MS-65 U.S. gold remains on many want lists at current and in many cases, even higher levels. Several dealers are actively pursuing MS-63 and MS-64 gold.

In the Mid-American Auction there were over 700 gold lots. This is a somewhat limited list of highlights.

Date	Grade	Price Realized
1850-D $1	MS-63/63	$ 9,900
1851-C $1	MS-65/65	$ 9,900
1855-D $1	VF 30/30	$ 2,970
1840-D $2½	XF 45/45	$ 2,750
1841 $2½	XF 45/45	$23,100
1843-D $2½	AU 55/55	$ 2,970
1853-D $2½	MS-63/63	$18,150
1854-C $2½	MS-63/63	$11,000
1854-D $3	XF 45/45	$12,100
1839-C $5	AU 55/55	$ 3,300
1852 $20	MS-65/65	$22,000
1932 $20	MS-65/65	$33,000

Early gold types did not bring prices as anticipated, thus, indicating a little softness in that area.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $314.50 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (Typical UNCIRCULATED) will have [illegible] marks [illegible] are necessary [illegible] may have [illegible] unevenly or poor. They may have [illegible]

MS-63 (Typical UNCIRCULATED) will have minor bag marks, may show only a slight weakness of strike. Should have light luster. These are well above average coins.

MS-64 will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks (definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics of the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

WORLDWIDE RECOGNITION FOR THE #1 CERTIFICATION SERVICE

Under the terms of an unprecedented agreement with one of the world's largest international insurance carriers—your coins may now be insured* for their full value—IN THE SAME GRADE IN WHICH THEY ARE CERTIFIED.

In order for your coins to be insured against all risk of physical loss or damage, this London-based carrier has mandated that each coin be certified as to grade, authenticity, and value by the ONLY grading bureau they recognize for this purpose-ACS.

While becoming the industry's most reliable grading bureau—ACS offers:

1.) Four color obverse and reverse photographs to unmistakably identify your coin with its certificate.
2.) Lifetime owner's registration—fully laminated—impossible to alter and transferable upon request.
3.) Grading and authentication is performed by eminent experts in our field—not a staff of trainees.
4.) ACS utilizes a specific numerical grading system (e.g. MS-65). ACS does not employ confusing and often misleading "split grades" (e.g. MS-63/65). ACS certification is in accordance with the lowest grade applicable. The only way to protect the consumer during times of constantly tightening grading standards.
5.) All coins received are certified and returned by registered/insured mail within 10 working days after their receipt.

SPECIAL INTRODUCTORY OFFER

ACS certified coins are in great demand. As a result, ACS certification is an important element for successful rare coin investments. To introduce you to the substantial benefits of our invaluable services we offer a special reduced-fee certification period of 30 days**

INTRODUCTORY FEE**
$10 per coin plus registered/insured return postage

NORMAL FEE
4% of insured value of each coin—
$16 minimum per coin registered/insured return postage

** enrollment offer good through June 30, 1985.

You need not have the official form to submit coins for certification. Submissions should be securely packaged, shipped registered/insured including your name, address, telephone number, a signed request for certification including all appropriate fees.

* Insurance available at your option.

This U.S. Dollar isn't worth the paper it's printed on . . .

300

but this U.S. Dollar is worth over ~~200~~ times its face value.

Turn the page and find out how you can share in America's Prosperity.

When this ad first ran a MS-65 1880 S Morgan Silver Dollar had appreciated over 200 times its face value. But today, five months later this same coin has now appreciated 300 times.* When you consider that since 1967 the value of the U.S. Greenback has declined by over 71%,† don't you think you should invest in U.S. rare coins.

This demonstration of the investment wisdom of U.S. Rare Coins shows the virtually unexcelled potential that can be had by the informed investor in this area. Michael G. De Falco Numismatic Investments, Inc., has designed a conservative program to allow you to participate in this time honored and well developed field. We have a record of service that has benefited clients for over 11 years in preservation and growth of capital. To explain this program we have outlined our services as follows:

MANAGED RARE COIN PORTFOLIO PROGRAM

These portfolios consist of the highest quality U.S. gold and silver coins. Each coin is selected, graded and priced by Mike De Falco personally. This program offers the investor maximum capital preservation, real growth and liquidity. A $5,000 minimum investment is required. Once this minimum has been satisfied, you can add to your portfolio in any amount and at any time.

GUARANTEE OF AUTHENTICITY AND GRADE

All coins are guaranteed to be genuine. This is a lifetime guarantee. Should any coin purchased from us ever be found not to be genuine, we will refund the full purchase price plus 10% interest per year for as long as you have owned the coin. All coins are guaranteed to be accurately and conservatively graded by the very strictest of standards.

10 DAY RETURN PRIVILEGE

All coins carry an unconditional 10 day full money back guarantee if you are not completely satisfied.

STATEMENT OF VALUE

Upon request, we will provide you with a computerized statement of value with which to monitor the progress of your investment. A "bid" price (our current cash buy price) and an "ask" price (our current selling price) will be provided for each coin in your portfolio.

REPURCHASE GUARANTEE

We further guarantee to repurchase or sell, on consignment, any coin purchased from us, at the same grade in which it was originally sold, provided that the coin has been maintained in its original condition while in your possession and is returned in its original holder.

*Coin Dealer Newsletter
†Bureau of Labor Statistics, U.S. Labor Department

PACKAGED FOR SAFE STORAGE

Each coin is housed in a clear inert KOINTAIN,® then placed in a clear vinyl flip which is heat sealed for your protection. This process is costly and time consuming, however it is imperative for safe long-term storage.

COMMISSION FREE SELLING SERVICE

We encourage clients to take advantage of this service. We will sell your bullion related or lower quality numismatic material for top market prices, commission free, providing the proceeds of the sale are reinvested with us.

PERSONAL CONSULTATION

Mr. De Falco or Mr. Hunt are always available to discuss your investment goals and needs with you personally and confidentially. There is no charge for this service, and of course, you are under no obligation.

MONTHLY NEWSLETTER

As a participant in the Managed Portfolio program, you will receive a one year subscription to our newsletter, MARKETWISE, free of charge. MARKETWISE is a nationally acclaimed rare coin advisory letter designed to educate, as well as keep you abreast of the current state of the rare coin market.

If this program is not for you, there's more. We also offer personalized investment portfolios for as little as $1,000, as well as a monthly acquisition program.

If you are interested in our services or want to find out more, clip the following coupon and return it today. We are also available to take your calls.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65---but with the additional feature of deep mirror prooflike surfaces both sides.

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck ---and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63---but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

LONG BEACH COIN SHOW MAKES BELIEVERS OUT OF SKEPTICS

Many Dealers Must Raise Buy Prices To Compete In Quality Market

The Market in Depth

With the moon rising over the Long Beach Coin Show, more and more dealers are beginning to see the light and realize that in certain areas of the market it is difficult to locate enough properly graded MS-65 material. Oh yes, there is the problem of what is an MS-65 to one may not be a '65' to another. But, the buyer of MS-65 or PR-65 coins is the one putting his guarantee on the line. And if the ultimate customer wants to test the dealer's guarantee and buy-back policy, the coins had better be properly graded. If the coins were not properly graded the dealer will be faced with one of three situations: 1. Buying the coins back at his guaranteed buy price and absorbing the loss; 2. Buying the coins back at his guaranteed buy price and passing the coins on to the next customer; 3. Refusing to buy the coins back at his guaranteed buy price. None of these choices could be considered good for business or the industry as a whole. So, one might consider the preferred alternative in the first place, and that's, selling properly graded material at current levels plus profit and overhead.

The Long Beach Coin Show was quite active and attendance appeared to be at its highest level in 2 or 3 years. The Heritage Auction drew large numbers as there was a constant waiting list to view auction lots. There were reports of many lots being resold on the bourse floor after being purchased in the auction. Some of the Heritage Auction highlights follow:

Date	Grade	Price Realized
1882 $1 TIII Gold	MS-65/65	$6050
1856 $3 Gold	MS-60/60	$4400
1859 $3 Gold	MS-60/60	$5060
1883 $3 Gold	MS-63/63	$6380
1901-S $10 Gold	MS-63/63	$1540
1901-S $10 Gold	MS-63/65	$2090
1932 $10 Gold	MS-63/65	$2420
1926-S $20 Gold	MS-67/67	$7370
1890 S.L. Dime	PR-63/65	$2420
1890 S.L. Quarter	PR-63/65	$4070
1890 S.L. Half	PR-63/63	$5390
1890 Morgan Dollar	MS-63/63	$4290
1925 Lexington	MS-67/67	$ 742
1920 Maine	MS-67/67	$1870

EDITOR'S NOTE

Readers should be aware of the virtual perfect 1934-P quarters which have recently surfaced. The coins were not struck by the U.S. Mint. There are apparently bag quantities available. One dealer was offered three such rolls and immediately notified the Secret Service. The CDN viewed one such specimen and notes the following characteristics: The coin is extremely lustrous on both sides. The obverse appears somewhat grainy in Washington's hair. There is a small tick over the eye. On the reverse, upon close examination, the feathers appear dull with a lack of detail. The lettering on the reverse was also grainy.

This Week's Market

CENTS: This week found several lots of BU Lincoln rolls available at lower levels. Those retreating a bit were: 1937-S, 1939-D, 1943-P, S, 1952-D, 1954-S, 1970-P and D.

NICKELS: BU Jefferson rolls appeared somewhat quiet this week as most offers to buy were at "bid" or a little under. The only rolls higher were the 1946-S and 1947-S at $16.50 each.

DIMES: Original rolls of Mercury dimes, although not indicated by a rash of 'plus' signs, are extremely easy to sell at "bid" or more. At the Long Beach Coin Show one dealer had purchased at least $25,000 in original Mercury dimes. He proceeded to separate the full split bands and sell the best specimens to one high buyer at over current FSB "bids". He then sold lesser quality FSB coins at 40% off FSB "bid". These obviously were not MS-65's. He then put the remaining coins back into rolls and sold them at roll "bid" to another dealer. It must be stressed that the rolls had been picked, but they were original.

QUARTERS: Some rolls of BU Washington quarters in the 1940's are beginning to see slight upward movement. Dealers are mostly interested in rolls which "bid" $350 or less. Many dealers feel, at less than $9 per coin, that these issues are the most likely candidates for price increases. The 1945-P, D, 1946-S, and 1947-S rolls, all advanced this week. The rest of the Washington series remains active at bid/ask levels with the 1953-S and 1954-S on higher ground.

HALVES: There are no changes for BU rolls of Franklin and Walking Liberty halves this week. But don't take this as meaning activity was off. Many (over 150) gem MS-65 Walking Liberty halves changed hands at Long Beach between $275 to $315. These were just the supposed common dates (1941-1945-P), while many of the more difficult dates sold at even higher levels. A few dealers have mentioned the fact that early 'Walkers' (1916-33) seem to be a good buy at current levels, if found in strict MS-63 or MS-65.

DOLLARS: There are numerous "plus" signs down the MS-63 column. Several dealers are currently stocking up on this pleasing grade. MS-63 and MS-64 dollars are very popular with many of the telemarketing companies.

Prooflike dollars in MS-65 indicate a number of "plus" signs for various dates, but one of the most active areas remains original dollar rolls. Specific buy prices are not being tendered, yet, when buyers are offered nice original rolls, they consistently bring over "ask" levels. This was the case at Long Beach as many rolls changed hands, including common Peace dollars.

Brown and Blue Ikes are on a roll. There are numerous buyers at levels ranging from "bid" to "ask" and in some cases even higher. At Long Beach, one eager dealer was paying 20% over "ask" for all Brown and Blue Ikes (except the 1973-S Brown at "ask"). He did manage to fill his order by Friday afternoon. At this time, there are a few eager sellers for limited lots at current levels. When these lots are offered, they sell immediately.

PROOF SETS and MINT SETS: After seemingly weakening, 1961-63 proof sets are again being sought at $19.50 each. Reported buy prices are $19, but many lots continue to bring $19.50 to $20. It almost appears that the recent higher buyers are attempting to keep these sets as low as possible. Nevertheless, sets are not being discounted at this time.

Mint set activity is light. The 1970 and 1984 sets are lower as individual lots have been offered for sale at lower levels.

COMMEMORATIVES: MS-65 commems remain a very exciting part of this bull market. On bourse floors many properly graded issues continue to bring prices in excess of "bid". The closest thing to an MS-65 in a Lafayette sold at Long Beach for over $7000. It was an awfully nice coin. A gem Norfolk brought $750. The various 3-piece sets are the most difficult to locate as all three coins must match. .

TYPE: Six of the 1884 Seated dimes (from the original roll sold earlier this year) appeared in the Heritage Auction. One of the coins brought $3190. The others ranged from $2035 to $3080.

There are several "plus" signs on page six for MS-65 and PR-65 type coins. Buyers are looking for clean specimens with eye appeal.

New activity has been reported for gem Barber Coinage as some dealers try to locate all the better dates.

GOLD: Mint state U.S. gold continues its strong upward climb. There are numerous dealers perpetuating this market. A number of investment houses continue to offer sets to their clients. Type II one dollar gold pieces are the most difficult to locate in AU to MS-65. They readily bring above "bid" prices when transactions are completed. Three dollar gold pieces also bring above "bid" prices in MS-60 and MS-63.

U.S. GDLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $316.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Will be mint luster coins with many bag marks, may show very slight wear on one of the high points, have full luster and are well above average centering.

MS-63 (CHOICE UNCIRCULATED) Will be minor bag marks, may show very slight wear on one of the high points, have full luster and are well above average centering.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

IMPORTANT ANNOUNCEMENT!

"LIMITED EDITION"

SILVER DOLLAR BOOK!

Don't Miss Out!

June 7, 1985

Dear Grey Sheet Reader:

This is your FIRST, LAST and ONLY chance to reserve a copy of the "Limited Edition" 10th Anniversary book:

ALL-NEW!

SILVER DOLLAR FORTUNE-TELLING: 1987

By Les & Sue Fox (Publication: Sept. '85)

Hey, Les, you're saying, what do you mean this is my only chance to buy your new book featuring 1997 price predictions? As soon as the book is published, I'll be able to buy it at my local coin shop, in Coin World ads, at a show or on the teletype.

NO YOU WON'T!

We are only printing 2,500 numbered and personally autographed copies of the 1987 FINAL EDITION of Silver Dollar Fortune-Telling --- which are exclusively reserved for our confidential list of subscribers as well as Grey Sheet readers who subscribe now to our monthly letter, The Fortune-Teller. *

(*All books will be mailed First Class on the same day!)

***** Let me repeat that! *****

The 1987 "Silver Dollar Fortune-Telling"

will never again be advertised for sale

ANYWHERE, and you will not be able to buy

***** a copy from any dealer or distributor!!! *****

Why are we doing this?

Because in the past, whenever we have published our Silver Dollar book, demand has instantly exploded for specific dates we recommend (YOU WILL BE SHOCKED AT THE DATES, GRADES & FUTURE PRICES WE PREDICT NOW!)...causing our best clients to be squeezed out of the small supply of Silver Dollars on the market. We won't let that happen again.

This time, only a tiny number of fortunate individuals will have a copy of the book in time to take advantage of our special tips and advice, long before everyone else sees it...and this could mean thousands of dollars of extra profit for you!

But, in order to justify such a small printing (over 100,000 books sold since 1977) we must charge a "high" price for the new book: $99!

(see next page...)

NOT EVERYONE WILL PAY $99 FOR A BOOK...

What would it have been worth to you in 1977 to know that the 1925 Peace Dollar would jump from $12 to $200 in MS-65 within 10 years?

That was just one of many controversial and supposedly "wild" predictions we made in the first edition of "Silver Dollar Fortune-Telling." Today, of course, Gem 1925 Dollars easily trade at the $500 level and if you have read our last book you know that our minimum projection for the year 1994 is $1,200.

Will our prediction for 1997 be $2,500? $5,000? $20,000? Don't Guess!

When you know which dates we consider "Super-Sleepers" for the future, you will be in a position to pay prices for coins that everyone else considers "too high." And to pass on coins that are more speculative and risky.

IF YOU DON'T THINK A BOOK CAN BE WORTH $99, REMEMBER THIS...

In 1977, most dealers and numismatic investment "experts" highly disagreed with our opinions on the rarity and future values of Morgan and Peace Dollars. Today, most think we have been too conservative in recent years! Funny how times change.

Remember, too, that you must always go against the crowd to reap big rewards. Four years ago we almost stood alone in recommending Chrysler stock at 7. Now it's 37.

And remember, if you don't buy the book at $99, that 2,499 other people will buy it - guaranteed - by our deadline of July 15, 1985, after which if you change your mind, forget it. They will all use the book against you, and you will no longer be able to get a copy from us. And don't count on seeing someone else's book until they have bought all the under-rated Silver Dollars before you even know what to look for!

What about 1883-S? 1888-O? 1896?

DON'T BE SORRY YOU DIDN'T INVEST THIS SMALL SUM IN CRITICAL INFORMATION!

Oh, by the way, you still can't buy the book, even for $99, unless you sign up for a year of Fortune-Teller newsletter at $42 (use coupon below)...which means you must send us a check for $141!

MS-60+ MS-63?

I'll be honest. Every issue of The Fortune-Teller does not contain tips as good as Chrysler or the Sesqui $2½ (we sold 100 to F-T readers in 1979 at $450 apiece, check current Bids!) --- but we publish unique investment concepts that you can use sooner or later to cash in on special opportunities most people don't know about.

For example, in this month's issue you'll find a 6-page report on "The Systems Game" in rare coins, including grading certificates, repurchase guarantees (we discuss specific dealers by name) and How To Beat The System! Is it okay to buy MS-64 vs. 65? There is also a story on Old Chairs as an investment, Merrill Lynch's recommendation on how to earn 19% to 41% a year on Gold, new British Proof Gold and the "Angel" Gold Coin at high-premiums, an 1883 U.S. Coin that could be a steal at $600 (it's not the V-Nickel) and a U.S. $4 Gold Piece priced under $700 in Gem because it is only "half" American!

All in all, I don't think you can duplicate the exciting news and potentially valuable information I can give you!

And if you refuse to pay $99 for my new book, well, some people refused to pay $20 for Gem Morgans in 1977! Good luck with or without me!

P.S. The size of the new Silver Dollar book is 8½ x 11 and Hard-Cover only.

The facts and figures, of course, are larger than life!

Sincerely,

Les Fox

Is 1880-S worth $100, $500 or $10,000 in Gem?

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 --but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark

MS-65 BARBER SERIES RECRUITS NEW PLAYERS

Krugerrand Premiums Suffer; Future Ban Possible

The Market in Depth

What does it take for an Ike dollar to grade MS-65? If one doesn't know, one may learn over the next few months as this series begins to heat up. There are already a few dealers looking to buy the most common of Ike dollars in MS-65 , but the coins have to look as clean and nice as Morgan or Peace dollars do in MS-65. This market may not take off until well into the future, but for now dealers want full struck, bagmark-free coins. Don't look for lustre, the clad dollars don't have much. The 40% silver Ikes (proof and mint state) have plenty of lustre. This, along with the fact that they are so reasonably priced and easily accumulated in large quantities make these quite an attractive series to many of the investment houses. Just within the past few weeks most of the 40% silver proof and uncirculated Ikes (except 1973-S proof), have advanced noticeably.

Date (40% silver)	Jan. 4, 1985 Bid	June 14, 1985 Bid	% Increase
1971-S BU	$ 3.75	$ 4.50	+20
1972-S BU	$ 4.40	$ 6.00	+36
1973-S BU	$ 5.25	$ 8.00	+52
1974-S BU	$ 4.65	$ 6.50	+40
1971-S Proof	$ 5.20	$ 6.75	+30
1972-S Proof	$ 8.50	$10.00	+18
1973-S Proof	$54.50	$47.00	--14
1974-S Proof	$11.50	$13.25	+15

For the time being, there are very few grading problems with the silver Ikes. Many arc sold in the original government package so they remain in their original condition. Other may be traded by the roll. Moreover, they are such a recent issue that very few would have seen any circulation. Nevertheless, the clad Ikes are so commercial and unattractive, most dealers don't even try to grade them and neither do we. Most dealers don't use a magnifying glass (we don't either) so it is difficult to determine the percentage of MS-65's available by date. We assume this study will be undertaken in the near future. Rest assured, the MS-65 or PR-65 buyers will be just as fussy as the PR-65 Franklin half buyers are today.

Superior Galleries is bending over backwards in an attempt to gain a larger share of the rare coin auction market. During their recent auction Superior treated many bidders to dinner in Hollywood and a barbeque at one of the owner's home. This "wining and dining" philosophy has already paid dividends for Superior. The following highlights are taken from the Robert O. Lawson Collection.

Date	Grade	Price Realized
1880-S $ Roll	MS-63-65	$3190
1936 Cincinnati Set	MS-63	$2530
1936 Columbia Set	MS-63	$1100
1861 $1 Gold	MS-63	$2090
1834 $2½ Gold	MS-60	$2200
1910 $2½ Gold	MS-63	$1788
1925-D $2½ Gold	MS-63	$1375
1878 $3 Gold	MS-60+ (MS-63)	$6875
1900 $5 Gold	PR-65	$14575

This Week's Market

CENTS: As further evidence of how soft the Lincoln cent series is, minus signs appear for several early dates of MS-65's in the June Monthly Summary. The 1916-S, 1920-S, and 1925-D are lower this month at $425 "bid". A few more issues up to 1933-P are also lower this month. The 1972 double die has been seen offered at discounted levels in MS-63 and MS-65.

BU Lincoln rolls continue to slide as dealers offer specific dates at discounted levels.

NICKELS: Buffalo nickels, in MS-65, feature nearly all "plus" signs from 1913 thru 1938 (all but 3 dates). The Monthly Summary indicates how strong properly graded MS-65's are, as various dealers look for specific dates and one dealer has higher buy prices on almost all dates.

Buyers of BU Jefferson nickel rolls have limited their offers to "bid" or under and as a result changes are limited to just one issue. The 1939-S is lower at $670 bid.

DIMES: Although plus signs are very predominant along the MS-65 FSB column for Mercury dimes, this series and grade is not that "hot". These higher bids are the result of one company actively searching for these coins. But, if they do not meet his grading criteria, the next higher buyer is a large percentage off of bid. The higher buyer cannot possibly see all the coins that make this grade and many sell for a percentage under "bid".

BU Roosevelt dime rolls remain saleable at current levels with the following exceptions: 1954-P is higher at $73 and 1963 & 64-P,D are lower at $35 bid.

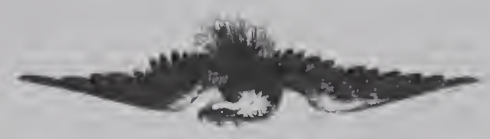
QUARTERS: BU rolls of Washington quarters are stable at current levels with the 1955-P roll the only one higher at $125 bid. There have been no reported sales of rolls at discounted levels. When the sparsely available rolls are offered the price tag is at least bid or more.

HALVES: Many dealers are in the market for gem Walking Liberty halves from 1916 thru 1933. They feel that the early halves have drifted low enough and can now be considered a valuable addition to an individual's collection or portfolio. The balance of the Walker series (1934-1947) also indicates a large number of plus signs in MS-65. All of the 1941 thru 1947 halves in MS-63 are higher, while several of the MS-60's have increased for the same period.

DOLLARS: Minimum bid for common Morgan dollars (1878-1904) in MS-60 is now $38. In MS-63 the 1882, 83, 84 Carson City issues are now bid $145 each. The 1878-CC is up to $185. The 1886-S, 87-S, 88-S, 89-S, 90-S, and 91-S are all higher in MS-60 and MS-63. There are several advances in the MS-63 Prooflike column. Various dealers feel these coins are nice enough qualitywise to warrant higher prices.

Ike dollars (Blue and Brown) remain quite active, although most bidders are content with current prices.

PROOF SETS and MINT SETS: The 1950, 51, and 52 proof sets are making a concerted effort to attain higher levels. Several dealers are currently paying over bid to buy all the available sets.



The 1979-S and 81-S, both type II proof sets are again higher. The 1981-S TII, apparently is not plentiful as a complete type II in the original government plastic, as one dealer is attempting to prove by offering to pay way over bid for complete type II sets.

Mint sets are steady, but quiet this week, as the only change occurred for 1965 sms. It was lower at $3.85 per set.

COMMEMORATIVES: Commems remain on their sizzling pace as the marketsetters continue to pay above current levels for properly graded MS-65's. One dealer in particular is willing to pay over bid for almost every issue that meets his grading criteria. He does prefer original toned coins, with emphasis on original. Many other dealers look primarily for brilliant lustre but will also pay over bid.

TYPE: As can be seen in the June Monthly Summary the Barber series is moving upward in MS-65. A few dealers are looking for all the better dates as the gap between common dates and rare dates is very close. Three-cent silver coins are also on a number of want lists at higher levels. This is a very difficult coin to find in MS-65 or PR-65 for that matter.

GOLD: With the possibility of a ban on Krugerrands looming ahead, the premium for K-rands has dropped considerably. There is now a $6 price difference between K-rands and Maple Leafs. The chart below indicates dealers are willing to pay a little over 1% above the bullion price for K-rands.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $314.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark--these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices--particularly the pre-1941 issues. Washington rolls--dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-64 will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor sheer contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional feature of deep mirror prooflike surfaces both sides.

SILVER DOLLARS

We need large quantities of Mint State 65 Morgan and Peace Dollars. We are looking for coins that are sharply struck, have full luster and a minimum of abrasions. We need coins with sharp breast feathers and clean cheeks. Natural toning is okay as long as it is not spotty or "dirty" looking.

A No Risk Introductory Opportunity

Only 53 coins are available for your best offer.

While supply lasts, you can buy from one to five of these hand picked MS 65/65 St. Gaudens Double Eagles simply by calling our toll free number with your best offer.

Although we reserve the right to refuse or negotiate any offer you may make, it costs you nothing to pick up the telephone and dial our toll free number 1-800-US COINS with your price.

Recently, we received a shipment of several hundred Double Eagles from a purchase in Europe. After searching for hours, 53 coins met our tough criteria for MS 65/65. To convince you to begin dealing with Heritage, we decided to set those coins aside to make this unique introductory opportunity available to you.

Only 53 Common Date St. Gaudens are available for this No Risk Introductory Offer. May 24 bid on the coins was $2,600. Call now with your best offer.

Three simple steps to a great buy.

It's easy to take advantage of this introductory opportunity. Just follow these three steps:

1. With bid at $2,600 (as of 5/24/85), determine your best offer for one to five of the choice, hand-selected coins.
2. Dial our toll free number, 1-800-US COINS, and ask for one of our numismatic professionals.
3. Discuss your offer with your Heritage professional.

If your offer is accepted, you could be the owner of one (or more) of the lustrous Double Eagles at an extremely favorable price.

A No Risk Opportunity

There is no cost and no risk to you. The telephone call is charged to us, and if we can't make a deal then you have no further obligation. And, if you're successful, you've purchased an attractive Double Eagle at an even more attractive introductory price. Plus, you'll discover the speed and efficiency of buying from Heritage Rare Coin Galleries, proving to you why we're the largest dealer in the business today.

Act now, only 53 coins are available.

Since only 53 coins met our standards of quality, we expect to be completely sold out within days of your receipt of this offer. And even if MS 65/65 Double Eagles are not your area of interest, we have MS 63/63 Twenties, $10 Indians, other small denomination gold, type coins, and more, all for immediate delivery at very competitive prices.

Call us now, toll free, and make your best offer. You just might be the new owner of a top quality Double Eagle for less than you might think.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 -but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark

RECENTLY GRADED ANACS COINS WIDELY ACCEPTED

Does MS-63/65 or MS-65/63 Equal MS-64?

The Market in Depth

If one had to describe in one answer, why MS-65 or PR-65 coins seem to be so expensive in relation to lesser grade coins, it would be quite simple: There are very few coins in the marketplace that grade 65/65, solidly, obverse and reverse. Sure, you might find one side or the other, but more often than not, the other side is 63 or less. Depending on where the coin rested for all its years, it is bound to have some distracting marks on at least one side. This is why one finds a very small percentage of full MS-65's in an original bag of Morgan dollars. The coins bumped and scratched each other when the bags were tossed around the U.S. Mints. The coins were not made for presentation, but circulation. The exception here is, proof coins were made for collectors and historians. But the value was so small over face and future considerations were not taken into account, that handling of these coins was not as carefully maintained as it is today.

This leads one to question the descriptive numeral grading of coins. Should coins be graded on both sides? For example, MS-63/65. Or, should the coin be averaged? MS-64. There are more than two sides to this coin, oops---question. Should the coin be given the best grade or the least grade? Does it matter whether the obverse or the reverse has the higher grade? These questions will be answered over time as the market dictates, but for now, one should take a conservative approach when buying. If this philosophy sounds familiar, it may be that this is how the coin business operates: "Buy low---sell high" or buy at one grade and sell at a higher grade. Ideally, dealers should buy back coins at the same grade they originally sold them (many do).

ANACS takes the 2-sided grading approach, which is very much accepted when the coin grades evenly on both sides; i.e., 65/65. (It must be pointed out that there are many certification services available. The most popular is ANACS as there are numerous buyers of ANACS graded coins MS-65/65 at current bid levels. Most of the other companies' papered coins are offered at drastic discounts.) But many coins are unevenly graded. This creates a problem in pricing. There are many more ads appearing in coin publications using uneven split grading; e.g., 63/60, 63/65, 65/67, 65/63 and others. This system is a step toward more precise grading. Nevertheless, many dealers feel that the lower grade should be used in pricing the coin on a wholesale basis. The one exception is, if a coin is graded higher on the obverse than its reverse, this will add to its eye appeal, thus, making the coin worth more than the lower of the two grades. For example an 1882-CC Morgan dollar graded by ANACS - MS-65/63 is bid $145 in MS-63. But since the obverse is graded 65 instead of the reverse the coin could wholesale for $235 or more. This is MS-64 bid.

There are many reputable coin companies using this averaging system in their advertisements. To reiterate, the obverse is the side which must have the higher grade for the majority of cases in order to use the averaging system. As with most coin advertising, "there is no Santa Claus", you will get what you pay for. If someone consistently advertises coins for sale at below bid prices, rest assured, you will receive below bid quality. There definitely are many buyers at bid for the majority of all properly graded coins. This is especially so for silver dollars, commemoratives, Walking Liberty halves, and U.S. gold.

This Week's Market

CENTS: BU Lincoln rolls continue to experience extreme difficulty in realizing bid prices. Efforts to sell quantities of specific dates at discounted levels go unanswered. When rolls are offered below bids, they are usually in mixed lots. This week finds the 1938-D and 39-D BU rolls with lower bids.

NICKELS: BU Jefferson nickel rolls continue their inconsistent attitude. One week a few rolls are up a bit, the next week unchanged with no activity. This happens to be the week with a few rolls up a taste. The 1949-D, and S rolls are now bid at $52 each. The 1944-D is the only war nickel roll higher at $310.

DIMES: Original BU rolls of Mercury dimes remain very active, although there is enough buying and selling at current levels to keep bids unchanged. Most of the rolls are being searched for FSB MS-65's which can be sent to the major high buyer of this issue at his high buy price.

BU Roosevelt dime rolls appear to be quite soft. The quantity buyers of this series have dropped their buy prices considerably. Sellers are appearing much more often at bid prices with a few large lots being offered at discounted levels. The 1946-S roll is lower at $200 bid, as is the 1949-D roll at $365. Several rolls, 1953 and later, are also lower. Nonetheless, a few original bags in the mid-50's were offered and immediately sold.

QUARTERS: BU Washington quarter rolls are not as weak as Roosevelt dimes, but they do have their share of minus signs. Again, the major buyers have lowered their buy prices, but as of yet, not many discounted rolls have been offered. This will be a series to watch over the next few weeks. Nevertheless, this week found a few minor changes: The 1945-S, 1947-S, 1954-S, and 1958-P are all lower.

HALVES: There are two consistently active buyers of original rolls of Walking Liberty halves who attempt to outbid each other. But this market is hardly limited to these two buyers. There are many active dealers trying to search out these elusive rolls. They are not totally elusive, its just that what is available is in short supply for demand. Some dealers are placing the rolls "as is"; while others pick through the rolls for MS-65 specimens. The majority of the rolls from 1939-1947 have plus signs.

BU Franklin half dollars are beginning to see over saturation for specific dates. There have been several small deals available at bid or less and a couple of sizable deals with rather large quantities of certain dates available well below bid.

DOLLARS: So-called common 'S' mint dollars are now bid $60 in MS-60. While the common 'P' and 'O' Morgans are up to $39 and $40 in MS-60.

Prooflike dollars, in MS-63 and MS-65, continue their upward run with a rash of plus signs in the bid range columns. Remember, there are no ask prices here because dealers do not have a constant supply available for sale.

Ike dollars, blues and browns, have slowed a bit, while clad proofs increased. The upcoming summer season may slow this market down.

PROOF SETS and MINT SETS: Proof sets are continually active, although most trading takes place at or around current levels. The 1981-S TII set is once again higher. The high buyer of these sets claims he has bought only 5 complete sets in over 3 weeks.

Mint sets are on the quiet side as sales go unreported.

COMMEMORATIVES: Rampant plus signs on MS-65 commems have slowed, but activity hasn't. The major buyers are still constantly seeking gem coins at bid or higher.

The Olympic $10 gold coins in proof are very volatile. Bids are up this week for the P, D, and S. There is no ask price because the supply is quite thin. The only coin which seems to be somewhat plentiful is the W mint.

TYPE: As we discussed last week, the Barber series is really beginning to take off. Many dealers feel that the low-mintage coins have sat idly by far too long. They are not going to sit back as the common dates, in MS-65, catch up to the better dates in price. They know the rare dates are seen much less frequently and should be purchased instead of common dates at near the same price when located.

Circulated type coins continue their "Rip Van Winkle" attitude. There is very little movement here, up or down.

GOLD: Although gold bullion was up for the week, circulated U.S. gold showed a down-trend. Circulated U.S. gold is only wanted at lower levels, while uncirculated specimens are wanted at higher bids.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $319.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-63 (UNCIRCULATED) Will be uncirculated pieces which may show only a few small contact marks. Overall appearance should be full mint lustre. Eye appeal should be average or above.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional feature of deep mirror prooflike surfaces both sides.

An introductory offer

This time, it's up to you.

Krugerrand
$411.00
June 8, 1984

Now valued at $328
as of June 7, 1985

MS 63 St. Gaudens
$900.00
June 8, 1984 CDN Bid

Now valued at $950.00
as of June 7, 1985

For a limited time, we'll sell you either the Krugerrand or the MS 63 St. Gaudens for the June 8, 1984 price.

(see other side)

Go ahead . . .

It's your decision. Take your pick of either a Krugerrand or a MS 63 St. Gaudens $20 Gold Piece – and we'll sell you the one you pick at the June 8,1984 price as a special introductory offer. That's $411 for the Krugerrand, and $900 for the St. Gaudens.

But before you choose, here's a little helpful advice:

	Old 6/8/84 CDN Bid	New 6/7/85 CDN Bid
St. Gaudens MS 63 . . .	$900.00	$950.00
St. Gaudens MS 65 . . .	1,650.00	2,750.00
Krugerrand . . .	411.00	324.00

So be our guest. Take the Krugerrand and take a bath . . . or take the MS 63 St. Gaudens and discover how rare gold coins outperform all other gold.

And, while you're choosing the most investment for your money, call our toll-free number, 1-800-527-9250, and discuss prices on our MS 65 St. Gaudens as well . . .although only the MS 63 St. Gaudens will be sold for the 1984 CDN price. As the above chart shows, the better the grade, the greater the appreciation.

Of course, any appreciation is better than depreciation. So take advantage of our introductory offer – but, call toll-free today, because this special opportunity on one of today's hottest gold investments is limited to the first 100 callers, limit 1 per customer, and ends June 30.

Make your decision now. After all, it's your choice.

But, if you take the Krugerrand, don't say we didn't warn you.

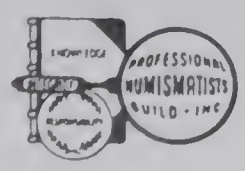
AN IMPORTANT MESSAGE TO DEALERS, INVESTORS, COLLECTORS, TRUSTEES AND ESTATE MANAGERS

There is an art to buying coins ... and an art to selling them. Some dealers like to play games with prospective sellers. It may be "fun and games" for the dealer, but it is definitely not fun for the prospective seller. We don't play games. We are serious about the coin business. We have been serious for over two decades. And we are especially serious about U.S. Gold coins. We are constantly buying and selling large quantities of Fives, Tens and Twenties...mostly from other dealers. If we didn't pay fair prices we wouldn't have anything to sell. So we pay fair prices!

When we buy MS-60 we don't expect an MS-63 coin ... when we pay for an MS-63 we don't expect a gem. We are reasonable people.

But don't take our word (we may be a bit biased) ... try us yourself. Here are our current buy and sell offers for U.S. Gold Coins:



DENOMINATION	MS-60	MS-60+	MS-63	MS-64
$5 Liberty	270/310	300/NA	900/NA	1500/NA
$5 Indian	850/950	900/1100	1900/2100	2300/2800
$10 Liberty	330/NA	420/480	1200/1450	2200/NA
$10 Indian	800/900	900/1000	1600/1800	2000/2400
$20 Liberty	560/600	600/NA	1000/1150	1400/1600
$20 St.Gaudens	650/690	710/760	975/1100	1300/1500

We'll even buy the lower grades that many others pass up ... for $5 Indians we are paying $175 for polished F-EF, $210 for clean VF without problems, and $225 for clean EF. Likewise for $10 Indians we are currently offering $265 for polished F-EF, $340 for clean VF, and $360 for clean EF. We'll buy single pieces or large quantities.

We are also strong buyers of Silver Dollars especially original rolls and bags. Sample buying prices: Original "P" bags for $60,000; original "O" bags for $59,000; and original "S" bags wanted for $90,000 and up.

Of course we are always interested in individual rarities, hoards and collections of U.S. and World Coins. Visit our table at most major coin shows, drop us a note or call. We'll travel to you if necessary ... and will make it worthwhile for you and a pleasant experience. Not all dealers are alike ... just ask any dealer or collector who has dealt with us whether they were treated with fairness.

If you're not 100% satisfied by the way you have been treated in the past by other dealers when selling or buying, try Ron or Dennis Gillio next time. We look forward to being of service in all of your numismatic needs.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same charecteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides.

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

ORIGINAL WALKING LIBERTY HALVES CONTINUING LONG UPWARD MOVEMENT

BU Roosevelt, Washington, Franklin Rolls Meet With Resistance

The Market in Depth

ANNUAL SUMMER REPORT

Judging by the attitudes of many dealers across the country, it must be summer---vacation time. Dealers talk of working only four days a week in their stores or at the most 4½, thus taking long weekends. The only reason some will work the weekends is that's when the coin shows take place. There are several series, which after being quite active, have begun to cool down, possibly because of the annual summer slowdown. BU rolls of Roosevelt dimes, Washington quarters, and Franklin halves are showing weakness chiefly because a few major companies are over-inventoried. How long this condition may exist is anybody's guess. Whether any other conditions will arise to continue this downturn might be unfounded assumptions at this time.

Dealers who pushed the Ike dollar series for the past month and a half now seem reluctant to bid any higher. This series is on the precipice and could go either way. Also somewhat stationary at this time are proof and mint sets. Although mint sets see very little activity, proof sets remain sought after, but only at current levels. BU Lincoln rolls, Anthony dollars, and circulated type have been consistently quiet for many months now and there's no sign of a turnaround. The annual summer slowdown in the aforementioned issues is not unexpected, as many dealers would rather be cash strong and inventory light.

At the other end of the rare coin spectrum are the numerous series which continue their hot pace. The high flying investment houses are constantly in need of quality coins. MS-65 dollars, commems, U.S. gold, and Walking Liberty halves are at the top of many dealers' want lists. The investment houses report astronomical sales volume but continue to have difficulty in locating enough material. This points out how well the sales effort is being accepted by the numbers of new buyers to the numismatic field. Most of the investment houses adhere to strict grading strandards. On the other extreme, many telemarketing companies (who solicit the novice over the telephone) who sell off-quality MS-65's are not having any trouble locating material. This is not to say that material which grades less than 65 is not a good buy, but can be if priced accordingly.

Some other issues of wide interest are original rolls of Mercury dimes and Walking Liberty halves. It is encouraging to see a large number of buyers, especially for W.L. halves, with a few trying to outbid each other. Whereas, some series (MS-65 FSB Mercury dimes) a buyer continues to outbid himself. Original rolls of silver dollars remain constant at bid and higher as are MS-63 and MS-64 Morgan dollars. Again, it is hoped that investors/collectors will educate themselves to the facts on grading so that they can demand the grade for which they are paying.

This Week's Market

CENTS: Although minus signs don't cover the BU Lincoln roll column, lack of enthusiasm still plagues this series. There are a few changes for rolls dated 1960 and later.

NICKELS: BU Jefferson rolls continue their half-hearted attempts to projecting a warming trend. But, the same rolls that have been increasing over the last three months continue to be bid higher, by a very small percentage, by the same bidder. This week finds the 1940-D, S, 41-P, 46-S, and 52-P higher.

DIMES: Numerous minus signs appear along the BU Roosevlt dime roll chart. Various selling lists have recently appeared and unless they are at discounted prices they remain unsold. The most commonly seen rolls offered at lower levels are the 1955-P and 1958-P.

QUARTERS: Scattered losses can be found among the BU Washington rolls. These have been recorded, of course, only for those dates which have actually been listed for sale this week at lower levels. Moreover, indications are that very few dates would sell at current levels, even if offered. This is principally true of the rolls dated after 1940.

HALVES: As mentioned in The Market in Depth, original Walking Liberty half dollar rolls are among the most wanted of all series. Buyers are plentiful and many dates (1939-1947) are higher this week. Minimum bid for common 'P' mint rolls is now $2200.

The Franklin series is soft. Several rolls are lower this week as various sellers offer rolls at discounted prices. A few other dates also could have dropped except for the fact that a couple of dealers needed 1 or 2 rolls of specific dates. One major buyer of this series has reversed his marketing strategy and is now a seller at current levels.

DOLLARS: The most common Morgan dollar (excluding 1921's) are now bid $40 in MS-60. In MS-60 and MS-63 the 1886-S thru 1891-S dollars are all higher this week. Original rolls are difficult to locate, but when found, usually bring ask or more.

Gem dollars are once again searching for new, higher ground. There are plus signs for the majority of the silver dollar issues. MS-65 prooflike dollars are also reaching new highs. Prices are getting so high in fact, that one must be very careful in what one buys. One must be well aware of the current grading standards and be comfortable with probable future markets. Take heed: You would not buy a car or a house from someone who solicited you over the telephone, so why would you buy a coin, sight unseen, from someone over the telephone? You must receive a strong guarantee or a return privilege in order to check out the quality of the coins.

Ike dollars have turned around as a few minus signs now appear for the silver issues.

PROOF SETS and MINT SETS: Proof sets from 1936 to 1970-S continue to trade at current levels, but are not any stronger than that as a group. Individual sets, of course, may trade at higher levels only if there are gem/perfect coins in the sets. The 1981-S TII set continues to climb; now bid at $105.

COMMEMORATIVES: In MS-65, this series is up almost across the chart (gold and silver). With the very low overall mintages and the even lower probability of locating true MS-65 specimens, this series is really taking off. It only remains to be seen how far and fast it will go. Compared to mintages in other series, this is one of the rarest areas overall in the rare coin field. Nevertheless, it does have one of the highest percentages of BU coins compared to mintage.

TYPE: Uncirculated and proof type, less than 65, are beginning to show a tempered pulse. It is not widely advertised, but a few dealers are beginning to buy 60 and 63 type that they feel has a little extra eye appeal. This may be an area to watch for future activity.

GOLD: For the third week in a row U.S. gold, circulated, appears somewhat weak. Many dealers are concerned that gold and silver bullion may test $300 and $6 an ounce in the near future. They definitely are taking a wait and see attitude.

MS-65 gold is higher this week almost across the chart. There are very few true MS-65 coins available and there are always buyers around.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $316.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-63 (SELECT UNCIRCULATED) No ... bag ... may show only a weak ... and have ... Must have eye appeal

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions but none major. May have a few minor cheek contact marks. Definitely better than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

VALLEY STATE BANK

June 21, 1985

Dear CDN Dealer:

It is uncommon for most bankers to handle the following request:

"I would like to finance 200 MS-60+ Saint Gaudens $20 gold coins."

At Valley State Bank, loans secured by precious metals and numismatic properties are made everyday. Coin dealers, brokers and telemarketers have increased their sales through our financing program.

In addition to being bankers we understand the precious metals and numismatic marketplace. If your company qualifies, we can assist you in designing a financing program that meets the specific needs of your customers. Hopefully our program will have a positive impact on your bottom line.

Our team of professionals stand ready to assist you in developing new profit centers. We invite your call or letter and hope we can be of service to you.

Sincerely,

Joel Gabrelow
Senior Vice-President

Mark Albarian
Vice-President

P.S. Investors and collectors please write for our brochure.

BUYING GEM UNC. (MS65)

SILVER DOLLARS

We need large quantities of Mint State 65 Morgan and Peace Dollars. We are looking for coins that are sharply struck, have full luster and a minimum of abrasions. We need coins with sharp breast feathers and clean cheeks. Natural toning is okay as long as it is not spotty or "dirty" looking.

WORLDWIDE RECOGNITION FOR THE #1 CERTIFICATION SERVICE

Under the terms of an unprecedented agreement with one of the world's largest international insurance carriers—your coins may now be insured* for their full value—IN THE SAME GRADE IN WHICH THEY ARE CERTIFIED.

In order for your coins to be insured against all risk of physical loss or damage, this London-based carrier has mandated that each coin be certified as to grade, authenticity, and value by the ONLY grading bureau they recognize for this purpose-ACS.

While becoming the industry's most reliable grading bureau—ACS offers:

1.) Four color obverse ond reverse photographs to unmistakably identify your coin with its certificate.
2.) Lifetime owner's registrotion—fully lominoted—impossible to olter ond transferable upon request.
3.) Grading ond authenticotian is performed by eminent experts in our field—not o stoff of trainees.
4.) ACS utilizes a specific numerical grading system (e.g. MS-65). ACS does not emplay confusing and often misleoding "split grades" (e.g. MS-63/65). ACS certificotian is in accordonce with the lawest grade applicable. The anly way ta protect the cansumer during times af canstantly tightening groding stondards.
5.) All cains received are certified ond returned by registered/insured mail within 10 warking doys ofter their receipt.

SPECIAL INTRODUCTORY OFFER

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63+ but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

EDUCATION IS BACKBONE OF INDUSTRY
Mint State U.S. Gold and MS-65 Commems Remain Hot

The Market in Depth

EDUCATION—PRO OR . . . . .

There are many of you dealers who are proponents of education. Although the profit motive must be your primary concern for being in business, education must be a means to this end. Though all forms of education may not be perfect, they are a learning process by which discussion will continue as one upgrades his expertise just as one will upgrade his collection. Education can take on many forms. One can read books, newsletters, advertisements, and auction catalogues. One can attend educational forums or seminars, the likes of which ANA conducts. One can also learn much information by going to a local coin shop and talking with the dealers. Or, one can attend a coin show and talk to many dealers, for the bourse floor is probably the best means of practical education. Here, one can compare information, prices, coins, salesmanship, personalities, and longevity. All of these pieces of education go into the buying and selling of coins.

All dealers use some of the aforementioned items in their sales approach. Some dealers use them all. The educational tools a dealer uses most will determine his reputation. He who seeks to sell before he educates, will have but one sale. This doesn't mean each and every dealer is supposed to hold classes, but he should be willing to give the customer more than just the time of day when the customer is attempting to spend his hard-earned money. The contradiction here may be that some of the more popular dealers are always very busy.

All of this rhetoric leads up to the fact that your reputation is your most valuable asset. True, profit is your motive, but reputation brings customers to you. The better the reputation, the more repeat sales, the larger business volume; presumably, more profits. The profits will come in time as will the reputation; it does not develop overnight.

As you develop your reputation and your clientele, you will find your customers come to trust your judgement. They will rely on you to buy coins for them because they know you have their best interest in mind; especially for the long run. You can call them on the telephone and sell them coins because of your reputation. This is quite unlike some of the telemarketing companies who solicit customers from mailing lists and call them trying to sell investment packages. Some of these telemarketing (but not all) companies are made up of high pressure salesmen who know nothing about coins. They do not care to buy back coins at a later date. These kind of operations could be the chief cause of future government regulations.

This Week's Market

CENTS: The Lincoln roll market was very quiet this week. The only changes recorded were 1940-D and 1960-P sm date, both lower in BU. There were three proof only rolls higher. The 1975-S, 83-S, and 84-S seemed very strong at higher bids.

NICKELS: After recording a few plus signs last week for BU Jefferson rolls, this week has seen no significant activity. This market is supported by very few dealers. There has been very little action reported for BU Buffalo nickels this week.

DIMES: A whole run of minus signs appears this week for BU Roosevelt dime rolls. There are a number of sellers of various dates, while the buyers are few and far between except for a few miscellaneous rolls. When bidders do attempt to buy rolls their bids are usually at discounted levels.

QUARTERS: The Washington series is really being hammered right now. There are numerous sell lists appearing from time to time at lower levels. One of the more consistent higher bidders is now a seller of most rolls at discounted levels. The only thing that keeps some rolls from going lower is the fact that there are some buyers for various dates at current levels, but only for limited quantities.

HALVES: BU Franklin rolls are suffering as much as Roosevelt dimes and Washington quarters. It doesn't seem to be a matter of taking profits as much as it is getting out of the rolls in case they go down further.

Original Walking Liberty half rolls remain on many want lists at current levels. It is not a matter of being competitive anymore, it's a matte of locating any quantities of these original rolls.

DOLLARS: MS-65 dollars are once again higher almost "across the board" There are a number of bidders for specific dates at these new higher levels. some cases their buy prices are even more dramatic. Obviously, there are n enough MS-65 quality coins to meet today's needs. Just be sure that what you buy today, you will be comfortable with tomorrow; either by grade o guarantee. If one relies on the guarantee more than the grade, be careful that the rules don't change in midstream.

PROOF SETS and MINT SETS: The 1981-S TII proof set continues to advance to higher ground. This increase seems to pick up followers each week as sellers of complete sets are but a few. The 1970-S 'S' less set continues to fall and now is at a lower $425 bid.

COMMEMORATIVES: This market has more support than it ever has. Aside from the increasing numbers of quantity buyers of MS-65 coins, The Society for U.S. Commemorative Coins has a lot to do with the increased interest and knowledge of this series. This week finds a large group of plus signs along the MS-65 column for both silver and gold commems.

The Olympic $10 gold pieces are extremely active as the low mintages might indicate. The 1984-P and D are both higher this week.

TYPE: Many dealers are very leery of copper, especially in MS-65. Most fe that any minor mark or spotting will just create problems in the future. As a result, there are several minus signs for copper type coins in Proof and MS-65 this week.

A near frenzied crowd is expected at Auction '85 at the end of July. Rarcoa, Superior Stamp and Coin Company, Inc. Paramount, and Stack's conduct this annual event together. Many dealers have expressed that this should be quite competitive as there are many desirable lots going under the hammer.

GOLD: Not even lower bullion prices can slow down mint state U.S. gold. There are several plus signs in MS-60, 63, and 65. In most cases, dealers will pay more for ANACS graded U.S. gold.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $310.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Will have many bag marks, may show only a slight weakness of strike. Should have full luster. These are well above average coins.

MS-63 (UNCIRCULATED) Will have minor bag marks, may show only a slight weakness of strike. Should have full luster. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

Introducing: **The Rare Coin Exchange**
— a revolutionary new concept for investors and traders of rare coins . . .

Now you can trade rare coins just like stocks and bonds . . .

That's right! No more long, tedious auctions . . . no more waiting months and months to sell a coin . . . no more guesswork regarding your coins' liquidation value . . . no more grading discrepancies . . . no more bargaining with reluctant buyers. *In short: No more hassles and no more hold-ups when you buy and sell rare coins. With* **THE RARE COIN EXCHANGE** *you can now trade rare coins just like you'd trade stocks on the Stock Exchange!*

The **RARE COIN EXCHANGE** is a revolutionary new concept patterned after trading principles that have proven successful on both stock market and commodities exchanges. It allows you to trade rare coins *sight unseen,* yet in a free, visible, open market ensuring fair price.

The **RARE COIN EXCHANGE** consists of three distinct elements: 1) An exclusive certification program that *guarantees* both grade and price for your coins. 2) Listing on the **RARE COIN EXCHANGE** for any certified coins you wish to offer. 3) Listing in ***Coin Quote,*** our exclusive "market maker" publication for rare coin investors and traders. Here's how it works for you in three easy steps:

1 First, in order to trade on the **RARE COIN EXCHANGE,** you must have your coins certified as to their present grade and condition by our experienced certification staff. Coins are certified by combining their traditional numeric grades with the five market-related characteristics of *appearance, mark, strike, lustre,* and *color. Certification allows traders to know* ***exactly*** *what they're buying from you through the Exchange, without having to actually view the coins.*

2 Once your coins have been certified, they can be listed for sale on the Exchange. No more auctions. No more long sales pitches to reluctant buyers. Interested buyers simply pick up the phone and make the trade (eg., purchase your coin) . . . much like they would with stocks, bonds or other investment vehicles. *It's that simple!*

3 In order to help you achieve *maximum exposure* for your coins, we list the highest bid and the lowest offer for each certified coin traded on the **RARE COIN EXCHANGE** in ***Coin Quote,*** our exclusive "market maker" price reporting sheet for traders. ***Coin Quote*** is mailed up to *40 times per year* to all **RARE COIN EXCHANGE** traders, so your coins can be "seen" by literally thousands of eager buyers as often as three times a month! In our opinion, ***Coin Quote*** provides the best exposure possible today for dealers with coins to sell. And since all Bid-Ask ranges in ***Coin Quote*** reflect *real* transactions (just like on the stock exchange), you can track the price changes of your rare coins, and determine within close tolerance *their actual liquidation value* at virtually any point in time!

Questions & Answers . . .

Q: How much does it cost to list my coins on the **RARE COIN EXCHANGE?**

A: *Practically nothing.* There is a small certification fee for each coin submitted, which runs 4% or less of the owners stated value. Your coins can then be listed for sale on the Exchange at no further cost to you whatsoever!

Q: What are the commissions charged?

A: The lowest in the industry, only 5% on actual transactions.

Q: How long will it take to certify my coins?

A: *Five days!* That's the fastest turnaround time in the industry.

Q: Who certifies my coins?

A: Our team of numismatic experts, each with a minimum of *ten years* industry experience.

Q: How is the actual *pricing* of my coins handled?

A: The bid-ask ranges listed in ***Coin Quote*** reflect *real buyers and sellers.* If you wish to sell a coin within the current bid-ask range, it can be sold on the Exchange almost immediately. Or, you can use ***Coin Quote*** to track the price movements of your certified coins, selling only when their bid-ask ranges have been pushed high enough by traders to price levels you're satisfied with. *Just like on the stock exchange!*

Q: Can I trade any coin on the **RARE COIN EXCHANGE?**

A: No, just as every stock isn't traded on the NYSE only coins with sufficient demand and trading volume are listed.

Q: How do I get started?

A: *You can receive more information about trading on the* **RARE COIN EXCHANGE** *by calling Mary Thompson on our* ***toll free*** *Exchange Hotline. Mary will be happy to answer all of your questions personally. She will also send you as many Certification Request Forms as you'll need in order to have your coins traded on the Exchange. Just call Mary today at* ***1-(800) 621-1339, ext. 222.*** *From Illinois, please call* ***1-(312) 549-2227, ext. 222.***

Let the **RARE COIN EXCHANGE** solve all of your buying and selling problems. Learn how to trade on the Exchange *quickly, easily,* and *profitably. For more information, call* ***today,*** or fill out and mail the coupon below to: **The Rare Coin Exchange, 1423 W. Fullerton Ave., Chicago, IL 60614.**

YES! Please send me more information about trading on the **RARE COIN EXCHANGE.** I would like to receive your exclusive listing of coins ◇currently being traded on the Exchange, as well as details on how to open a trading account, and how the Exchange works. I understand there is no cost or obligation whatsoever for this information.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65 -but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck -and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 -but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

ANA Election Most Important Ever

The Market in Depth

It's election time for the American Numismatic Association. It is not our policy to endorse candidates for the Board of Governors, but it would behoove all ANA members to read the platforms of all the candidates in the July 3rd issue of Coin World. This will probably be the most important election in ANA history. Like any election it is the job of the voters to select the best possible person, in this case for each seat on the board of governors. This is a non-partisan election, but some candidates might have more to gain than others by winning a prestigious seat on the board. The next few years will dictate the direction the ANA, and for that matter, the whole coin industry will take. The following is a list of candidates and the position for which they are running.

Florence M. Schook-President, Stephan R. Taylor-Vice President. Board of Governors Seat #5: Bill Fivaz, Michael Haynes, Raymond N. Merena, and Anthony Swiatek. Seat #6: George M. Beach, Grover C. Criswell, Richard B. Dusterberg, Charles A. Fenwick, Arthur M. Fitts III, Michael R. Fuljenz, Leonard Glazer, Catharine "Kay" Lenker, Donn Pearlman, and Sol Taylor. Seat #7: Charles G. Colver, Thomas K. DeLorey, David L. Ganz, and William H. Horton Jr.

Each and every candidate supports education as one of, if not the most important aspects of ANA. Also as important may be the grading service, which has come a long way since its inception. In the last two years alone ANACS graded coins have improved their reputation to the point where there are now numerous buyers at current bid/ask levels. This shows how they have increased their consistency over this period of time.

As an indication of the importance of this election, the candidates seem to be campaigning more than ever before. There is a tremendous amount of money being spent for campaign advertising, as the candidates keep their faces visible, their platforms read, and their past reputations all tied together with their name.

The direction which the ANA takes over the next few years will be empowered with these newly elected officials. If you want to have a voice as to that direction, then vote. You don't even have to get out and vote, just vote by mail.

This Week's Market

CENTS: This past week has seen a little activity in BU Lincoln cent rolls. Although restricted to just a couple of specific dates, at least there is some interest by some dealers at higher prices. Therefore, 1941-P and 1942-P rolls advanced to $22 and $16.50 respectively. The 1983-S and 84-S proof rolls are higher for the second week in a row.

NICKELS: The only reported action for BU Jefferson nickel rolls appears on the downside. Various roll deals have been offered recently at discounted levels; thus, there are numerous minus signs this week. The 1939-S nickel in MS-63 and MS-65 has seen some downward adjustment. Original Buffalo rolls are still active at current bids if strictly original.

DIMES: After last weeks series of minus signs appeared for BU Roosevelt rolls, they have apparently firmed up a bit. There was not a lot of discounted lots for sale, although this could be rationalized by the short work week. This series, along with Washington quarters and Franklin halves should be watched very cautiously over the next few weeks.

QUARTERS: The BU Washington quarter rolls remained quiet as discount sellers took a long weekend. The two main coin shows reported mixed reviews, though many dealers confessed to vacationing and still experiencing a decent show. The only two rolls that indicated changes were 1958-P and 62-D, both bid lower at $165 and $73 respectively.

HALVES: Activity remains strong for original rolls of Walking Liberty halves. Aside from the numerous MS-65 buyers, there are various investment houses looking to place rolls with their best clients. Advances are not recorded this week, but there are some dealers willing to pay over bid for unspecified dates.

The only BU Franklin roll with a change was 1959-P at a lower $190 bid. This series appears to be weaker than this indication overall.

DOLLARS: Carson City dollars indicate added strength this week in MS-63, 64, and 65. The 1903-S and 1904-S dollars are both higher in MS-63 and MS-64. MS-65 prooflike dollars remain on many want lists, but not many pieces have been reported changing hands. Current owners of these particular specimens are not easily convinced to let go of their holdings.

BU Ike dollars are once again advancing for the 40% silver issues from 1971-S to 1974-S. There are not as many buyers this time around, but the buy prices are for large quantities. The 1972-S and 74-S (40%) proofs are also wanted at higher levels.

PROOF SETS and MINT SETS: Proof sets from 1936-1964 remain solidly traded at current levels. There are a couple buyers of 1961-63 sets at $20 per, but for very limited quantities. There are also sellers at current levels.

Mint sets still do not receive as much activity as proof sets, but there was a distinct increase in trades at current levels this past week. The 1968, 69, and 76-S (3 pc. 40%) were higher as a result of advanced bidding.

COMMEMORATIVES: MS-65 specimens are once again showing plus signs up and down the commem column. The supply becomes thinner each and every day as more and more dealers recommend the MS-65 issue. One tends to wonder if MS-63 coins could eventually make a nice run. An MS-63 is still considered a "choice" coin.

The $10 gold Olympic coins remain quite elusive and as a result the 'P', 'D', and 'S' minted pieces are bid higher this week. There are numerous buyers, while sellers are not seen very often.

TYPE: Type coins in proof-65 and MS-65 have numerous plus signs this week as the most visible buyer of this quality raises his buy prices again. CDN has not raised bids on three-cent nickels, proof-65 or MS-65, as many dealers feel it takes an especially nice coin to bring even current levels. Through a survey of numerous dealers it was concluded that this coin must approach proof-67 or MS-67 or the higher buyer will not touch it.

GOLD: There are a handful of plus signs for MS-65 U.S. gold coins as several dealers refuse to give up their search for strictly graded specimens. The $10 Indian is on the rise in VF thru MS-60. Most circulated U.S. gold appears in limbo as dealers look for a trend in bullion.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $315.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

[illegible] MS-60 (UNCIRCULATED) With [illegible] bag marks may show [illegible] assenes of strike. Should have full [illegible] luster and above average [illegible]

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks (definitely nicer than an MS-63. Must have eye appeal

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appealing fore and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides

MS 65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS 63- -but may also include some MS-60 and MS 65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

BAG-QUANTITY OF MS-65 DOLLARS CHANGES HANDS

I Q C Still in Strong Demand

The Market in Depth

Investment Quality Coins---to be known and referred to as IQC. IQC can be any grade such as MS-60, MS-63, or MS-65. For that matter, it can be used for circulated coins as well. The distinction must be made between IQC and commerical graded coins having the same numerical grade. For the purist, hobbyist, collector, those who disdain change, an MS-65 is an MS-65. If bid is $300, then the coin is worth $300. The commerical or technical grade may have been appropriate in the past, but times change. The business must improve or refine its parameters. With the influx of thousands of investors who are looking for an edge when it comes to resale, the IQC was mandatory. Just as all coins are not created equal, all MS-65's are also not created equal.

If for example, bid is $75 for an MS-63 1886-P dollar and MS-65 bid is $490, at what price does the coin become an MS-65 and stop being MS-63 or even MS-64? The conservative side of the industry says a commerical MS-65 is worth $275. But is this not the borderline, low-end, or technical MS-65? The coin may make the grade, but it is arguable. That's why it is priced less, dealers will argue both sides. On the other hand, the no question MS-65 (IQC) is the coin that investors demand. Investors will pay more for a coin that will not create an argument when it comes time to sell. Whenever there is a question of borderline versus no question quality (for the same grade) the CDN will always report prices as being based upon the no question quality coins.

So, IQC is the no-question quality coin in a specific condition. It is the coin dealers wish they could find more of because it is the coin they would like to buy back at a later date. It is the coin that does not need grading papers. Moreover, the papers are used only as an unbiased secondary sales tool. The grade and price should be the primary consideration in purchasing a coin. ANACS did not intend for their papers to be abused and used as a primary sales tool. It was intended to try and get dealers to agree, as close as possible, on grading. Thus, pricing is not their objective.

ANACS is the most reliable grading service available. They are becoming more consistent as time goes by and you cannot ask for anything more than gradual improvement. ANACS graded coins command the respect of the industry and coins papered in 1984 and '85 will likely bring prices in the bid/ask ranges. But there are various imitators out there and their services are just that---imitations. Their grading standards are not as strict as ANACS, moreover, they usually sell at about one-half of bid on a wholesale level, that is for MS-65 dollars. Not all of the other grading services fall into this second category, but if one must buy coins using a grading service as a primary source of confidence, one would do well to stick with coins certified and graded by ANACS.

This Week's Market

CENTS: Early BU Lincoln rolls were relatively lower this past week as various rolls were offered at discounted levels. Those showing considerable weakness were 1937-P, 38-D, S, 39-D, S, 42-S, and 43-S, all at lower bids.

Please check page three for new listing of 1985 rolls.

NICKELS: Although gem Buffalo nickels are very popular, a few dates are available by the roll. The 1937-P, D, and 38-D are lower as bid fell to $850 per roll.

BU Jefferson nickel rolls are quiet, but the only roll with a change was the 1939-S, at a lower $630 bid.

DIMES: Original rolls of Mercury dimes constantly receive buys at current levels. BU Roosevelt rolls are tradeable at current levels with these two exceptions: 1946-S at a lower $180 bid and 1957-D at a higher $77 bid.

QUARTERS: BU Washington quarter rolls, although not as active as the past few months, are not as sluggish as the last two weeks indicated. There are no changes this week, but there are buyers of almost all issues at current levels. There are very few visible sellers at this time.

HALVES: The supply of original rolls of Walking Liberty halves coming on the market is very small compared to the quantities needed. Aside from the usual known buyers, there are a few low-profile types now entering this market at current levels.

BU Franklin rolls find only two dates at lower levles: 1953-P (bid-$500) and 1959-D (bid-$220). This market appears more stable now than in the past two weeks. The 1970-D Kennedy roll has fallen to $330 bid.

DOLLARS: One of the higher buyers of MS-65 dollars just completed a single transaction for 1000 1881-S dollars. Hold on to your seat. He paid a half million dollars. That's $500 per coin! It's hard to believe there could be that many in one deal. These must have been cherry-picked out of many bags sometime in the past.

PROOF SETS and MINT SETS: Proof sets are stable at current levels, with a few increased bids for 1979-S thru 1981-S.

Mint sets received very little activity this past week as most dealers concentrate on other areas of the market.

COMMEMORATIVES: The $10 Olympic gold coins continue their hot pace as the proof P, D, S mints are all bid higher again this week. The 1984-D and S Olympic dollars in BU are now bid $42 each.

The major portion of MS-65 commems are bid higher as numerous dealers are recommending them, even at these higher levels. There is no slow down in sight.

TYPE: With the large percentage increases in gem material, it would seem like one of the major companies in our industry would make a concerted effort to buy 63 material. As of yet, this is not the case. The few dealers that buy this material try to remain as inconspicuous as possible. Keep in mind there is a large gap between MS-63 and MS-65 bids.

GOLD: MS-63 and MS-65 U.S. gold coins are constantly being sought by numerous dealers in the bid to ask ranges. There is not a constant supply of this material and sellers are not that easy to find. The $10 Indian is up again in most grades from VF thru MS-65.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion relatad gold coins in this issua ara figured on a basis of gold at $319.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES

$35.00 per column inch, 2 column inches maximum

Advertising space is limited, ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Any coin with no trace of wear but may show only a few insignificant contact marks. Will have full mint luster and will appear slightly above average.

MS-63 (UNCIRCULATED) Will have many contact marks, may show only a few insignificant contact marks. Will have full mint luster and will appear slightly above average.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional texture of deep mirror prooflike surfaces both sides.

IF *I* DON'T TELL YOU HOW GREAT THE BRUCE AMSPACHER INVESTMENT REPORT IS, THEN *WHO* WILL? WELL.....

There's other newsletters:

"The B.A.I.R. is great! It is generally accepted that saying good things about the competition is bad business (and saying bad things about the competition is tacky). Well, I'm going to break one of those rules. Bruce Amspacher is one of the sharpest coin minds in the country. He is also one of the best writers in the coin industry. Bruce publishes a monthly rare coin newsletter. I urge you to give Bruce a try."

There's other dealers:

"Lots of TRASH comes in our mail daily and very little treasure — your report is TREASURE. I can't remember when I have read anything that I agreed with more!"

A prominent Texas dealer

"Just finished your latest issue of the BAIR and as usual it was excellent or better. I think you REALLY probed into the subject matter and brought out some answers as a good interview should. All too often after one scans an interview that could be very interesting, the reader is left quite dry. Not in this case! It was superbly done I thought. Nice going . . . another item I'm finding VERY interesting in the BAIR and I'm sure you're not surprised to hear this from me, is your brilliant 'In-Depth Study of Proof-Like Dollars.' This grabs me! And the part I'm finding SO intriguing are your price records."

A well known Washington dealer

There's collectors and investors:

"This is a little note to express my satisfaction with the scholarly presentation of several articles that you have made in the past year. There are many besides me that take off our hats to a pro."

An Ohio collector

"I enjoyed the April BAIR received just last week. You are doing a fine job helping to keep us educated in our collector/investor interest."

A Mississippi collector

"I received the BAIR today. So far I've had the time to read it only once, but I can assure you I'll re-read it at least a dozen times. I'll vote for the BAIR as the best on the market. If you aren't deeply proud of the last BAIR, you have underestimated the achievement. Look back over the questions I sent and you'll find that you've answered all of them or nearly so. My only concern is that not enough people will recognize your efforts. Hopefully a few more people will take the time to tell you how much your efforts mean. I have learned more about coins through you than I did on my own in the 20+ years prior to your acquaintance. A very sincere thank you from those of us who realize the value of superb numismatic literature when we see it."

A Virginia collector/investor

"Your latest issue of the BAIR is simply superb. It is very useful, and I use that word intentionally. Already I have referred to it (the BAIR) several times and find it more than just another informative and interesting issue. It is an investment compendium, and a very significant anniversary issue even though it isn't intended to be. Congratulations!"

A Connecticut collector/investor

"I certainly look forward to, and enjoy your monthly BAIR report. Your articles on grading problems have been especially interesting. It will take people like you and other nationally known and respected dealers to solve the problems."

A New Mexico investor

"I've read two issues of your investment report. Truly informative, interesting, and enjoyable."

A California collector

"Enjoy your BAIR and especially your review — year by year of P-L dollars."

A Wisconsin collector

There's world famous bestselling authors:

"I would highly recommend the following publication. B.A.I.R., edited by Bruce Amspacher, analyzes various important market areas with emphasis on gem-quality coins. (Written by one) of the great minds in the business."

Questions and Answers About Rare Coin Investment

Q I am interested in investing in rare coins What kind of programs does Bruce Amspacher offer?

A There are many investment programs available Here are the most popular ones

1 *The Lump Sum Investment Program* This is the program most frequently utilized by the investor When an income tax refund a bonus or a matured money market certificate makes some extra cash available the investor puts the money ($2 000 $10 000 or whatever) into a rare coin investment portfolio

Unlike the monthly or periodic programs listed below this is usually a one time investment The one time investment of course is usually followed by more one time investments but those are made at a pace and at an amount that you select

2 *The Monthly or Periodic Investment Program* Some investors like to buy coins more frequently but in lesser amounts For example you might want a $1 000 package sent every month or a $2 500 package sent every three months

3 *The Collector Interest Program* This program is for the person who likes the performance of rare coin investment plus the joys of rare coin collecting This person may want Commemoratives only or silver dollars only or 20th Century type coins only One investor of mine buys $2½ Indians in MS 65 for investment and nothing else

4 *The Call Me Investment Program* If you get back home at a show with something really special the investor says then call me Over 90% of the great rare coins that I purchase never appear on a price list because the call me investors get first chance at them If a coin of exceptional rarity or outstanding quality whether it's a $5 gold piece or an Oregon Commem becomes available and you want to be called before it appears on a price list just let me know what areas if the market interest you

5 *The Tailored To Your Needs Investment Program* This program is available for special situations such as layaways time payments trades or almost anything else not covered in #1 #2 #3 or #4

AND BREATHE A LITTLE EASIER.

How to get coins with third-party grading, insured authenticity – and a good deal more.

Buying an NCI certified coin from one of the dealers listed here can give you some pretty special advantages in the market.

Because NCI is a third-party certification service, we don't feel the need to grade a certain coin at MS65 if it's really MS63. The only obligation we have is to grade as accurately as possible – which our years of market-tested experience allow us to do time and time again. In fact, our authenticity opinions are trusted enough to be insured by a major U.S. insurance carrier, which will pay you the stated value plus 15% per year on any NCI coin proven to be not authentic.

But the advantage of buying an NCI certified coin from a dealer doesn't stop at expert third-party grading. Thanks to a special agreement with Heritage Numismatic Auctions, every NCI certified coin will be graded exactly as stated on the certificate in any Heritage sponsored sale . . . to be sold at a 20% commission discount! And the NCI certificate is fully transferable, with all of the many benefits we've mentioned.

As you can see, buying NCI certified coins is a great way to breathe easier. Start investing in NCI certified coins – backed by the authority and advantages that only NCI can give. Talk to one of the dealers below about buying NCI certified coins today. And call us to find out how coins not certified by NCI can receive the most valuable certification in the numismatic world.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark

UNC TYPE COINS

Superb (MS-67) specimens often bring far more than the MS-65 prices listed below.

MAJOR RARITIES GOING UNDER HAMMER

Mint State Gold Buyers Persistent

The Market in Depth

Auction '85 is upon us. The bidders are anxious as there are many superb specimens offered by the four auction companies: Rare Coin Co. of America, Inc., Superior Stamp and Coin Co., Inc., Paramount Numismatic Services, Inc., and Stack's Rare Coins, Inc. Every "Real Buyer" in the country will be represented at Auction '85. This is the seventh consecutive year for this annual event. Not only are there coins of superb quality which will be easily recognized by the eager bidders, there are numerous lots of seldom seen rarities, which may not be offered again for a number of years. This is the opportunity of the decade for many advanced collectors. The individual auction companies are limited to 500 lots each.

In the Rarcoa session of Auction '85, there are Draped Bust Half Dimes thru Dollars graded from uncirculated to "Superb Gem Brilliant Uncirculated". There are two Flowing Hair 1795 Half Dimes: One graded "Gem Uncirculated", the other "Superb Gem Brilliant Uncirculated". Another rarity is the 1795 Flowing Hair Half Dollar graded "Gem Uncirculated". Not to be excluded here, there is a large quantity of early Bust gold pieces and numerous $3 gold pieces including the 1857-S, graded "Gem Brilliant Uncirculated".

Superior conducts the second session which includes a 1796 Draped Bust Quarter graded "MS-60", a 1797 Draped Bust Half graded "AU-55", and a 1795 Draped Bust Dollar graded "MS-63". There is a series of Proof Morgan Dollars, including two 1895-P specimens. There are various early Proof Sets from 1868 to 1911. U.S. gold dominates the Superior session. An 1848 $2½ gold with "Cal." over the eagle is recognized as the "finest known". It is graded "MS-65". An 1829 $5 gold has a "Brilliant Proof 65 obverse, with an MS-65 reverse". There are several proof twenties with the most impressive being the 1907 St. Gaudens Roman Numerals, Extremely High Relief graded "Proof 65". It is "absolutely unique".

Paramount presents the third session. Included in the 500 lots are numerous Seated dimes, quarters, and halves, many of which are graded as "Superb Uncirculated". There is a run of "Gem Proof" Shield Nickels and Liberty Nickels. Featured is a 1796 Draped Bust Dime graded "Choice Uncirculated (63/63)". There are various "Gem Uncirculated" Bust Halves, which normally cannot be found. Also featured is the extremely rare 1870-S Seated Liberty Dollar graded "VF (20/20)". It is one of 10-12 pieces known. Another rarity is a Matte Proof 1922 Peace Dollar catalogued as "Superb Proof (67/67)". This is one of 6-7 pieces known. To end this session are over 150 gold lots, not the least of which is a 1920-S $10 Indian graded "Gem Uncirculated (65/65)".

Stack's closes out Auction '85 with rarities of their own. They begin with a 1793 Half Cent graded "AU-55" and end with an 1861 $20 Gold Clark Gruber and Co. In between is one of the nicest runs of early proof sets ever assembled for an auction. They run from 1863 to 1899 and grade up to "Gem"; most are original. An 1876-CC Twenty Cent piece graded "Choice Brilliant Uncirculated and Superb" is another highlight. A 1796 Draped Bust Half catalogued as "Very Fine" is a likely target of advanced collectors. This session ends with over 130 gold lots, one being an 1854 Type I gold dollar described as "Choice Brilliant Proof, Unique".

These are just a few of the numerous rarities or distinguished lots. While there may be some lots which are of more importance, the final results will tell the tale. CDN will list highlights next week. Please contact one of the auction companies for a catalogue and complete prices realized.

This Week's Market

CENTS: BU Lincoln rolls continue their lackadaisical attitude. When activity is seen, it is mostly for rolls at discounted levels. This week finds 1937-S lower at $65 bid. The 1948-S, 52-D, and 54-S are also lower. A few late date rolls are lower as are a couple of proof issues.

NICKELS: The 1939-S BU Jefferson roll continues its slide; now bid at $600. There has been no apparent support at higher levels. The 1952-D roll is higher at $21, but the rest of the market is relatively silent.

DIMES: Original BU Mercury dime rolls continue to be sought at current levels, although the 1938-D and S rolls are bid higher at $1575 per.

BU Roosevelt dime deals are not to be found at discounted levels. Buyers are out there at bid levels, but sellers are reluctant at today's prices. Sellers do appear once in a while for the late silver rolls (quarters and halves also) 1964-P, D, but they are quickly purchased by eager buyers.

QUARTERS: There are not many BU Washington quarter rolls available at current levels. Most sellers would rather hold and wait to see if the market heats up again rather than sell at this time. Regardless, a few dates have been offered at below bid prices: 1944-P, 60-P, and D.

HALVES: Walking Liberty halves continue to be in strong demand. Original rolls and MS-65's are enjoying increased demand and may only be exceeded in popularity by U.S. gold, commems, and dollars. Nevertheless, these four series make up the "heat" of today's active market.

BU Franklin halves, by the roll, are not receiving much attention at this time. An occasional roll or two may be offered, but rarely discounted. Most active bidders are not very successful as their attempts are a little weak, pricewise.

DOLLARS: MS-65 dollars constantly receive higher bidding; although most of the higher bids are the result of one bidder, there are numerous buyers at current levels for properly graded coins. Several companies are dealing in papered coins (ANACS is the strongest; while the other companies break into this area, we can probably expect improvement over the next 3 to 5 years.) As this appears to be the "new wave".

PROOF SETS and MINT SETS: While proof sets are firm, bidders seem content at current levels. Mint sets are infrequently traded and this week finds the 1960, 1970, and 1973 sets, all lower.

COMMEMORATIVES: Auction '85 contains various gem commemoratives with a few seldom seen issues. Included is a Lafayette dollar graded MS-67/67, a Pan-Pac half graded the same, a Grant with Star called "Brilliant Uncirculated", and a Hudson described as "Gem Brilliant Uncirculated".

TYPE: Most MS-65 type coins continue their unabated advance. Auction '85 should reveal the depth of this market.

GOLD: Mint state U.S. gold remains strong at current levels. Properly graded coins are difficult to find. Many sellers try to push their coins a grade.

U.S. GOLD: (Prices are for the most common dete of each type.) Bullion related gold coins in this issue ara figured on a basis of gold et $321.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (EXTREMELY FINE-ABOUT UNCIRCULATED) Will have [illegible] or [illegible] marks, may show only a light weakness of strike. Should have full mint luster. These are well above average coins.

MS-63 (CHOICE UNCIRCULATED) Will have no more than a few small contact marks, or one or two larger ones. Will have good luster and be well struck. Must be free of any noticeable defects. Must have eye appeal.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-65 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

We challenge comparison!

LEARN THE FACTS ABOUT RARE COINS #1 RANKING

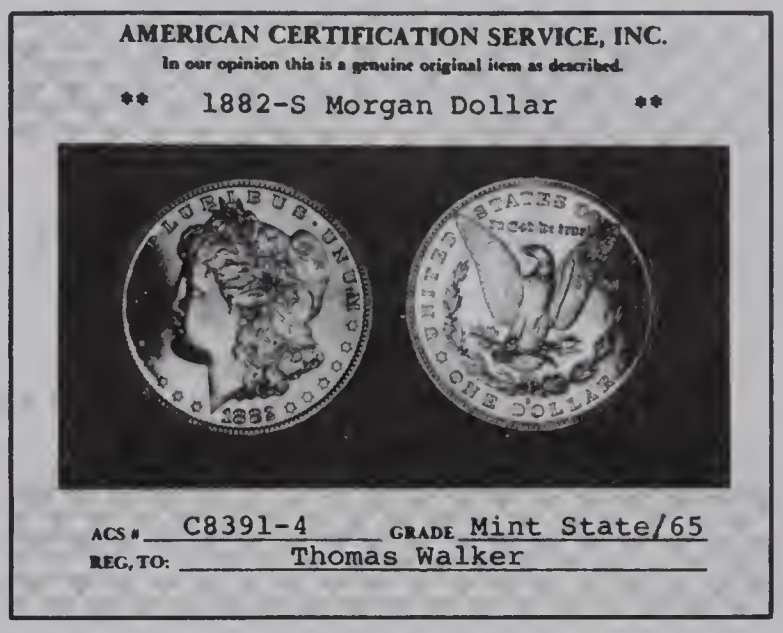
Successful investors are aware that over the past 10 years the #1 ranked investment* has been U. S. rare coins. While reports indicate average annual percentage returns in excess of 25%, results may vary dramatically—it's a question of quality.

As the leading rare coin investment firm in the nation, American Rare Coin Galleries, Inc., offers only the finest Mint State/65 Gem coinage obtainable.

WORLDWIDE RECOGNITION

Through an unprecedented endorsement, one of the worlds largest insurance carriers will issue insurance against all risk of physical loss or damage for every coin purchased through American Rare Coin Galleries.

Insuring your coin acquisitions for their FULL VALUE - AS GENUINE - and in the SAME GRADE AS PURCHASED, ARCG is the only rare coin firm to ever receive international recognition by this London based institution.



THE INTELLIGENT APPROACH TO RARE COIN INVESTMENTS

All ARCG coins are graded and certified genuine by the American Certification Service, Inc., with a photograph of the obverse and reverse (as seen above).

ALLOW OUR EXPERTS TO PLAN YOUR NUMISMATIC STRATEGY

1) Certain coins have appreciated over 50% — this year alone.
2) Other issues remain extremely undervalued.
3) Participation in certain areas is inadvisable at this time.
4) How will the planned monetary recall affect your investment portfolio?
5) How to become involved in coin acquisitions prior to dramatic percentage gains — not after.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same charecteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 --but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

AUCTION '85 HAMMERS DOWN OVER $9,000,000

Prices Strong, But Market Lacks Frenzy of 1980

The Market in Depth

Auction '85 is history. For those of you who could not participate, it was like a Sunday afternoon at the zoo. It was so crowded viewing lots that I am sure many bidders did not get to view everything that they wanted. For the most part, all four sessions were active. Most gem or rare coins sold easily up to the $15,000 level. After this level the lot had to be gem and rare to achieve active bidding. In general, it can be stated that quality coins brought more active bidding than rare coins. Nevertheless, this does not mean rare coins were not actively bid. On the contrary, an 1824/1 $2½ gold piece ("gem brilliant uncirculated") opened at $15,500. The gavel finally sounded at $95,000. After adding the 10% buyer's fee the total price was $104,500. The unique ultra high relief, MCMVII (1907), Twenty Dollar Roman Proof, in Proof 65 was finally hammered down at $260,000 after opening at $150,000. Final price to the buyer was $286,000. The 1922 Peace dollar, superb proof (67/67) realized $37,400, while an 1839-O half dollar in gem brilliant uncirculated brought $31,900.

The following is a very brief listing of various highlights from each session. For a complete listing of prices realized contact one of the auction companies.

This Week's Market

CENTS: Bags of wheat cents appear soft as various dealers offer multi-bag lots at $90 per. BU Lincoln rolls continue lightly traded with just a few dates lower this week. The 1937-S, 52-D, 70-P, 71-P and D all retreated slightly.

NICKELS: After recently appearing weak BU rolls of Buffalo nickels are once again on want lists at a minimum of $875 per roll. A few BU Jefferson nickels are also wanted at higher bids: 1940-D, S and 1941-S.

DIMES: The majority of BU Roosevelt dime rolls are trading at bid/ask levels. There are discount buyers, but they meet with very little success. The only two rolls with lower bids are 1953-P and 1955-P.

QUARTERS: BU Washington quarter rolls are not readily available at current levels. When sellers are located they usually have only a few dates with one or two rolls.

HALVES: BU Franklin rolls are seemingly soft with a handful of dates decreasing this past week. The 1952-P and D are bid $300 and $275 respectively. The 1954-P is $230, while the 1957-D is $190 and the 1958-D is $210. The 1955-P roll saw higher buys as bid increases to $380 per roll.

DOLLARS: This week finds numerous plus signs along the MS-65 column. Significant here is the fact that mostly non-common dates are the ones bid higher. It is quite difficult to locate any quantities of 'S' mints between 1885 to 1891 in gem condition. Although they do not compete in the one man bidding war, there are several dealers out there that consistently pay over the higher bids for properly graded coins.

PROOF SETS and MINT SETS: There are consistent bidders for proof sets from 1950 thru 1964. Most of the quantity buyers are within 2% of bid or right at bid.

COMMEMORATIVES: Auction '85 did not contain as many commems as collectors would have liked. But the gems that were available brought real money. A 1915-S Panama-Pacific realized $7425 in MS-67/67. Also, a 1905 Lewis and Clark was hammered down at $8250 (MS-67/67).

TYPE: Gem type coins are strong. There were many new faces in the auction room, along with some revitalized strong buyers from the past. Combine this with many Investment Quality Coins (IQC) and the many current buyers to help Auction '85 realize approximately $9,250,000.

GOLD: Mint state gold continues its strong move as evidenced in Auction '85. MS-65 material remains elusive, while buyers continue to look for true MS-60 coins and are willing to pay over bid for honest BU's. The $10 Indian is once again higher in VF on up to uncirculated.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $324.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

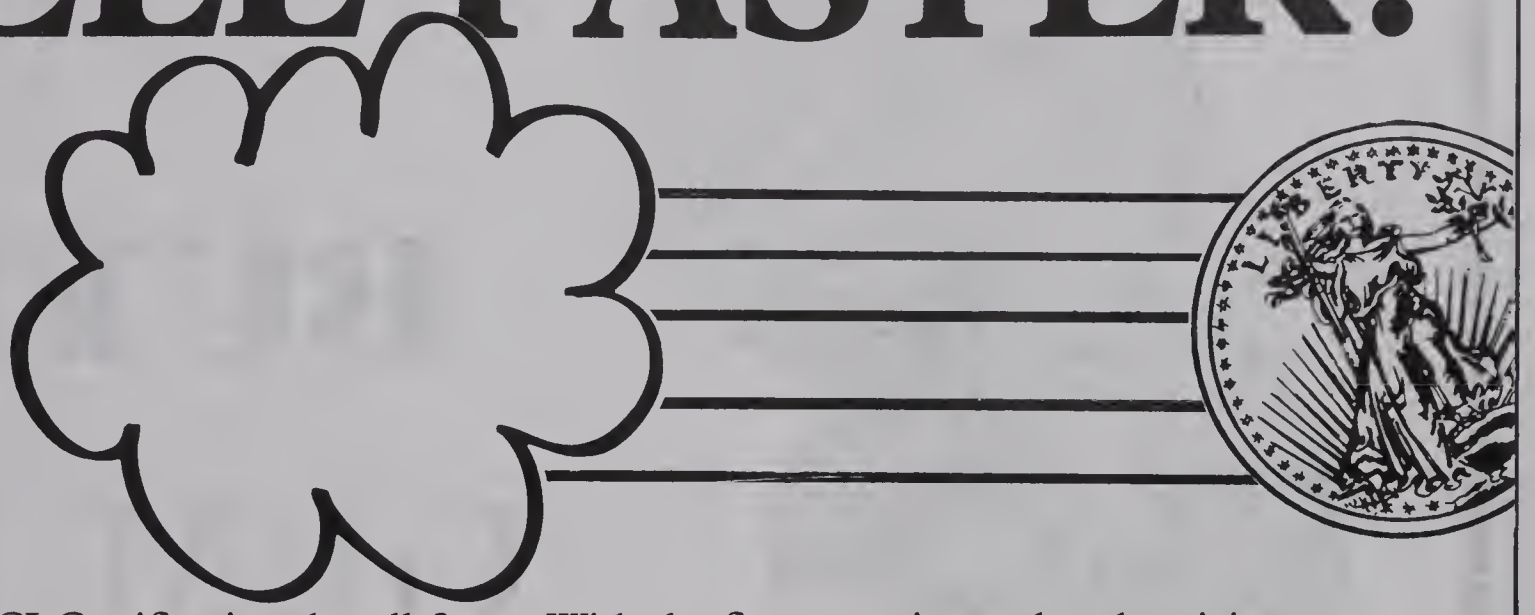
MS-60 (UNCIRCULATED) Will have many bag marks and/or abrasions and possibly a few nicks or light scratches. Should have good eye appeal.



MS-63 (CHOICE UNCIRCULATED) Will have minor bag marks, may show only a slight weakness of strike. Should have full lustre. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

NCI COINS SELL FASTER.

Coins with NCI Certification do sell faster. With the first-ever insured authenticity certificate, NCI gives your customers the confidence they want – and the sales you want. While customers can feel good about getting a coin with a grading and authenticity certificate of value, you can feel good about NCI's other important features:

- ***Real-World Grading Criteria.*** *We're tough, but fair. Mechanical considerations such as strike, wear and bagmarks are carefully reviewed with toning, luster and eye appeal to give you the most accurate grading possible.*
- ***Request a Grade to be Certified.*** *You have the option to request a grade to be certified. If we agree, a certificate is issued with your requested grade. If we don't, there's only a $5 charge.*
- ***Guaranteed Quick Turnaround.*** *If we don't send your coins back to you within 10 business days of receipt, your certification fees are FREE.*

With more and more of today's coin buyers turning to third party opinions, you need ease of selling that an insured NCI certificate can give . . . with the kind of value that makes for more satisfied customers and more sales. Call Tim LaPointe at 800-527-9250 or fill out the coupon below NOW, so that you can receive copies of our certification form soon.

BUYING GEM UNC. (MS65)

SILVER DOLLARS

We need large quantities of Mint State 65 Morgan and Peace Dollars. We are looking for coins that are sharply struck, have full luster and a minimum of abrasions. We need coins with sharp breast feathers and clean cheeks. Natural toning is okay as long as it is not spotty or "dirty" looking.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same charecteristics as the MS-65 - but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck - and virtuelly perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They renge from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 - but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark

MARKET HOLDING DESPITE SUMMER MONTHS

ANACS Graded Dollars Trading Sight Unseen at Bid Levels

The Market in Depth

Since there are more coin dealers than professional baseball players and Baltimore isn't big enough for both groups simultaneously, baseball will have to leave town as the ANA prepares for their annual event. The industry's most popular show of the year runs August 20-26 and comes on the heels of a most successful Auction '85. Besides the over 300 bourse tables, the show will feature the ANA Library, ANACS to authenticate and grade coins, and various educational seminars. Many of the bourse dealers feel the market will remain active in gem material (dollars, commems, Walkers, and U.S. gold), while others are hoping for gold and silver bullion to increase in order to activate the lesser involved series.

As was evidenced by Auction '85 results, Proof and MS-65 type coins are enjoying very strong demand. If the quality is there, buyers have cash available. But, despite glowing descriptions in the catalogue, in general, if the particular lot showed the slightest distraction, the coin did fall short of expectations. This is a strong indication that the experienced buyers want only properly graded coins and are not willing to take "shots" on coins that are not "all there", unless, they are drastically reduced in price. This also points out, they do know how to grade and that the relative newcomer to the business is also learning. The conclusion here is, one must view the coins under proper conditions; that being, good lighting and a clean loupe. If the client is short on expertise, but long on cash reserves, the dealer should be willing to educate that client and develop a mutual trust, not just for the present, but also, well into the future.

There are several major dealers who are always in the market for gem U.S. gold type coins. Of course, the coins must be strictly graded and defect free. It is interesting to note that most bids are up between 30% and 50% from the beginning of the year and still does not produce substantially more business. There is no indication that even higher bids will create any better results.

This Week's Market

CENTS: Sell lists continue to appear for various BU Lincoln dates. The same rolls are offered over and over again with no buyers showing the slightest interest. This week finds the 1937-S roll lower for the second week in a row. Other dates with minus signs are: 1954-S, 70-P, 71-P,D.

NICKELS: The BU 1939-S Jefferson roll is still skidding. Bid is now $585. When it started its recent descent, it was bid $775 on May 3rd. The 1950-P is also down at a lower $23. Bucking this trend is the 1952-P at $15.50.

DIMES: There are several buyers of original Mercury dime rolls at current bids, while one eager buyer will pay ask if the rolls contain some split bands. BU Roosevelt dime rolls remain steady except for stronger bidding on 1953-S and 1955-P. The 1955-P has reversed itself after having fallen last week. The common BU silver rolls (1963 and 64) are higher this week.

QUARTERS: For those discount buyers of BU Washington quarter rolls business is slow. Sellers are not eager to sell at bid, let alone under bid. There are active buyers of almost all rolls at current levels. As can be seen in the Monthly Summary Gem Washington quarters from 1932 into the forties are higher. These coins must meet the higher buyer's criteria or the next buyers in line are at least 15% off bid.

HALVES: One finds very few, if any, actual original rolls of Walking Liberty rolls being offered lately. The few rolls that are offered for sale are usually followed by the description, "not original, but real nice".

A few buyers have once again appeared for some dates in the Franklin series. This week finds the 1955-P and 1957-P higher at $390 and $265 respectively. A couple other dates increased at the last minute before we went to press: 1956-P, 57-D, 58-P & D, and 59-P & D.

DOLLARS: ANACS graded dollars (1984 and 85) in MS-65/65 are extremely strong at the moment. Two very visible buyers continously run their buy prices; one with a long list at ask and the other will pay bid for all dollars bid $1000 or less and graded in 1984 or 1985. With these conditions being met, he guarantees no returns.

By comparison, the second largest certification service by volume, NCI papered coins are wholesaling at 50% or less of bid for MS-65/65 dollars.

PROOF SETS and MINT SETS: Proof sets from 1950 to 1963 are very strong at current bids, with the 1951, 57, 58, and 60 wanted at higher bids. The 1950-55 sets are wanted in limited quantities at higher buys if they are in the original boxes only.

Mint sets are somewhat quiet except for the 1981 set. It is higher at $11.75.

COMMEMORATIVES: If the number of plus signs were the only indication of how active a market is, commemoratives would appear to be slowing down. Such is not the case. Gem commems are quite steady, although they are not as plentiful as collectors would like. Many dealers are hoping to fill want lists at the upcoming ANA.

TYPE: MS-65 Barber coins are very strong. Aside from buyers looking only for type, there are a few dealers looking to buy the rarely encountered dates. There are several plus signs for PR-60 and 63 type coins, mostly Barber dimes and larger denominations.

GOLD: Buyers seem to be gearing up for the ANA. Hopefully, sellers will bring the material that buyers want. If the quality can be agreed upon, price should not be the problem. VF and better $10 Indians continue their price rise.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $324.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (CHOICE BRILLIANT) Will have slight bag marks and/or slight lack of luster or contact on high points. Will have no bag marks and/or extremely slight lack of luster.

MS-63 (CHOICE UNCIRCULATED) Will have minor bag marks, may show only a slight weakness of strike. Should have full luster. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional feature of deep mirror prooflike surfaces both sides.

THE INTELLIGENT APPROACH TO RARE COIN INVESTMENTS

WORLDWIDE RECOGNITION

Through an unprecedented endorsement, one of the world's largest insuronce corriers will issue insuronce ogoinst all risk of physicol loss or domoge for every coin certified by Americon Certification Service, Inc.

Insuring your coin ocquisitions for their FULL VALUE - AS GENUINE - ond in the SAME GRADE AS CERTIFIED, ACS is the only grading bureou to ever receive internotionol recognition by this London bosed institution.

INSURE YOUR INVESTMENT

ACS certified coins ore in greot demond. As o result, ACS certificotion is an importont element for successful rore coin investments. You, too, moy rank amongst the most well informed, soundly guided ond prosperous investors involved in rare coins. Your intelligent opprooch is the security of ACS certificotion combined with the notionol acceptonce of ACS certified coins—the imperotive you simply connot offord to be without.

While becoming the industry's most reliable grading bureau—ACS offers:

1.) Four color obverse and reverse photagraphs to unmistakably identify your coin with its certificate.
2.) Lifetime owner's registration—fully laminated—impossible to alter and transferable upon request.
3.) Grading and authenticatian is performed by eminent experts in our field—not a staff of trainees.
4.) ACS utilizes a specific numerical grading system (e.g. MS-65). ACS does not employ confusing and often misleading "split grades" (e.g. MS-63/65). ACS certification is in accordance with the lowest grade applicable. The only way to protect the consumer during times of constantly tightening grading standards.
5.) All coins received are certified and returned by registered/insured mail within 10 working days after their receipt.

FEE SCHEDULE AND SUBMISSION FORM

INCLUDE:

1) 3% of the value of each coin (the amount you register and insure them for via the mails) with a $15 minimum per coin.

This is a 1936-S Oregon Trail Half Dollar. It is a U.S. Commemorative Coin and has a total mintage of only 5,006 pieces. Widely considered to be one of the most beautiful examples of our Nation's coinage, it is a striking symbol of America's history. Currently, in Gem, MS-65 condition, this fascinating coin sells for less than the price of two, 1880-S Morgan Dollars. In MS-63, it costs roughly $400. In A.U. and MS-60 grades, it sells for about $150 and $300.

Are you interested in finding out more about this Coin? WE WELCOME YOU TO JOIN OUR SOCIETY AND LEARN!

The Oregon Trail is just one of the 50 different types of silver Commemorative Coins minted between 1892-1954. Collecting Commemoratives offers the inquisitive mind an excellent opportunity to discover and study a unique series that is not only fascinating, but rich in history! Each coin displays its own special minting characteristics, historical background, and source for enjoyment!

In this era of investment/commercial "hype" and misleading market promotions, our non-profit club, the SOCIETY FOR U.S. COMMEMORATIVE COINS, was created by a studious group of collectors, investors, and dealers as a welcomed alternative for people who are genuinely interested in LEARNING about this wonderful series. WE DO NOT BUY OR SELL COINS! However, we do offer you KNOWLEDGE, COMRADESHIP, and a chance to have some good, old fashioned FUN!

The SOCIETY FOR U.S. COMMEMORATIVE COINS publishes an outstanding quarterly newsletter (July, 1985 issue-40 pages, 22 illustrations!) dedicated to an honest exchange of knowledge! WE ENCOURAGE ALL OUR MEMBERS TO CONTRIBUTE THEIR INSIGHTS and this publication includes club news, letters to the editor, and enlightening articles on grading, die varieties, minting characteristics, history, plus many illustrations of commemorative memorabilia NEVER BEFORE PUBLISHED! The only thing our newsletter doesn't have is ADVERTISING!

We hold informative slide shows and entertaining presentations all across the country each year in conjunction with most major shows. Our membership is growing by leaps and bounds, from a dedicated group of 30 to almost 600 in only two, short years! Join the multitude of people who have discovered the advantages of learning from such recognized specialists as Helen & Don Carmody, Frank DuVall, Mike Fuljenz, Jim Iacovo, Ray Mercer, and Anthony Swiatek, just to name A FEW!

Dues are only $12.50 per year for Adults ($5 for Juniors) and includes a membership card, a copy of our bylaws, a subscription to our quarterly newsletter, the right to vote in our club elections, and all the meetings you wish to attend! Our mailing list is PRIVATE and we DO NOT release it to ANYONE! If you are genuinely interested in LEARNING while you are having fun, complete the form below and mail it in today!

YES! I want to join the Society for U.S. Commemorative Coins!

Please make check payable to "Society for U.S. Commemorative Coins" and mail to: Secretary, Commem. Society, P.O. Box 302, Huntington Beach, CA 92648. We are a non-profit club, so please don't request any "sample" issues of our newsletter! If within thirty days you decide you don't wish to be a member, simply return all our material for a full refund.

HOW TO SAVE 2 - 5 TIMES THE COST OF YOUR SUBSCRIPTION TO THE INVESTMENT COIN REVIEW

When you subscribe to the **Investment Coin Review** you get, as a FREE BONUS, a 10% over cost one-time discount coupon for a **true** rare coin portfolio **(This one coupon will save you 2 to 5 times the yearly cost of the Investment Coin Review.)**

Gary North's Amazing, No-Risk, Almost Irresistible 100% Money-Back Double Guarantee (That you'll probably never use)

1. Like all Gary North offers, you can "test drive" at our risk — not yours — for a full 45 days. While such massive offers of highly prized financial information are usually offered on an "as-is" basis, your money is always securely guarded by our return policy. If for any reason you decide that you don't need the financial protection offered by Investment Coin Review, just send the unmarked bonuses back, and we'll refund your full purchase price. No questions asked. No hassles. No delays. (We do this because only a small number of people ever cancel, which is in itself our best endorsement.)

2. Just for trying Investment Coin Review, you can keep the 10% over cost discount coupon as our gift to you. (Who else but Gary North puts money in your pocket before you put it in his? Just another example of why Gary hasn't had such a lousy track record.)

YES, I Want the Best Recommendations the Coin Market Has to Offer. Please send me the Investment Coin Review.

MS 65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

OLYMPIC $10 GOLD IN HEAVY DEMAND
Dealers Anticipate Smashing ANA

The Market in Depth

Over the last two months the market for Olympic coins has steadily increased. While the silver dollars receive some attention, the most active coins are the $10 gold pieces. Since the West Point gold piece has the highest mintage its price has remained relatively stagnant since its insertion in the CDN. However, the 1984-P, D, S proof gold pieces, with their very low mintages, have been extremely popular and difficult to locate. There are several market makers actively seeking quantities of the elusive P, D, S coins, but with an approximate mintage of 30,000-40,000 each, one can see why they would be difficult to locate. The active bidders are not able to accumulate enough coins to satisfy their want lists---so, the prices continue upward.

Olympic $10 Gold - (Proof)

	Bid Feb 8, 1985	Bid Aug 16, 1985	% Increase
1984-P	$340	$600	+77
1984-D	$340	$565	+66
1984-S	$340	$525	+54

The future looks bright for these low-mintage collector coins whose quality should not be questioned because of the method of distribution. They were distributed in plastic capsules. Moreover, with the increased knowledge of handling coins by the collector, the original quality should remain somewhat intact. Needless to say, the fact that there are not any large quantities around wlll also help the rarity factor. These coins were originally sold singly. One additional reason for the low mintage was the apathy by the buying public toward modern coinage which usually winds up selling for melt value only.

The past few weeks have produced a renewed interest in proof sets (1950-55) at higher levels. While the mainstay dealers were buying at bid, a few dealers have raised their prices. At first the new bids were for unhairlined sets in original boxes, but now the sets do not have to be in boxes, but must be unhairlined. CDN bid and ask prices are for unhairlined sets in any holder. This is the case for sets 1936 to 1955. From 1955 (flat pack) to date the sets must be in original holders. The reason for the distinction is clearly a matter of packaging, in that, 1955 (boxed) and prior sets suffered damage to the cellophane in many cases and the coins were necessarily removed and placed in some other packaging. So most sets are not in the original government package anyway. Also, un-original sets can be put in individual cellophane and boxes and made to look original when they are not. Therefore, CDN prices are for any holder, but must be unhairlined.

This Week's Market

CENTS: Although action is limited, what little is seen in BU Lincolns is repetitive and on the downside. This week's minus signs appear for 1943-D, S, 1952-D and 1954-S. When offers to buy are seen they are usually at "well under bid" prices.

NICKELS: Just when it seems nobody cares about the BU Jefferson rolls, one dealer appears offering to buy his favorite rolls at higher levels. This week finds the 1940-D, S, and 41-S on higher ground. On the other hand, a couple deals of 1950-P rolls have been offered and remained unsold.

DIMES: BU Roosevelt dime rolls are once again on various want lists. After remaining steady at bid levels for a couple of weeks, several rolls have posted minimal gains. Those showing the most activity are: 1946-P, D, 1950-P, D, and 1951-P & D.

QUARTERS: Several of the Washington quarter dates are receiving increased bids. It appears that some medium priced rolls are just not found that readily. The astute dealers are attempting to stockpile the various rolls they do locate. The 1946-P, D, S rolls are higher, as are 1947-D, 48-D, 50-D, 51-P & D.

HALVES: Gem Walking Liberty halves continue to pick up strength. There are several buyers of this series at the higher levels. The one problem with this coin is that it is quite popular with many telemarketing companies. For the novice, as with many series, this coin is difficult to grade. Some of the telemarketing companies sell this coin at the bid/ask range, but they are not buyers at anywhere close to these figures. Dealers should be willing to give their clients a buy/sell spread. Not all telemarketing companies work under unethical circumstances.

DOLLARS: In the last week alone a few new bidders have been added to the growing list of buyers for ANACS graded coins in MS-65/65 at bid/ask levels. It appears that demand for ANACS graded MS-65/65 dollars is outdistancing the current supply. Demand is quite strong on the wholesale and investor level. Although ANACS papers are a significant and important part of the industry, there is no substitute for properly graded coins. The education is out there for those who want to protect their interests and don't mind hard work.

It has been reported by a couple major dealers (they deal in ANACS and NCI papered coins among others) that NCI grading has already turned for the better. Their grading has tightened a little; this can be felt as the percentage of coins graded MS-65/65 decreases. The loosely graded MS-65's still trade at about 50% of bid, although we have heard of a few lots trading at higher levels. The coins had more eye appeal and the papers were a secondary consideration.

PROOF SETS and MINT SETS: There are several plus signs for silver proof sets (1950-55). Unlike the past hot market of the 1961-63 sets (they didn't have to be all that nice), the 1950-55 sets must be real nice with no hairlines.

The 1981 mint set is now bid at $12, as one dealer is trying to acquire a large quantity.

COMMEMORATIVES: The number of plus signs has definitely dropped off the last few weeks. But, MS-65 commems are still actively pursued by many dealers. Some will even pay over current levels for the right coins. Some dealers feel prices have gone too far, too fast. So it will be interesting to follow this series in the weeks to come.

TYPE: Several dealers continue to hunt MS-60 & 63 type coins at current bids. This should make for more interest at the ANA as some dealers should be able to sell off some of their old inventory, as it becomes new inventory for someone else.

GOLD: Circulated U.S. gold picked up some strength last week as it finally moved in the same direction as the $10 Indian. Once again, several MS-65 issues advanced as levels are searched out where one can locate the limited quantities which may become available.

U.S. GDLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $327.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Will have many bag marks, may show only a slight weakness of strike, should have full lustre. Issues are not above average quality.

MS-63 (CHOICE UNCIRCULATED) Will have many bag marks, may show only a slight weakness of strike, should have full lustre. Issues are not above average quality.

MS-64 Will be sharply struck and have full lustre (brilliant or original tinting). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional feature of deep mirror prooflike surfaces both sides.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides.

MS-67 & MS-67PROOFLIKE (SUPERB) Will be 100% fully struck--and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

ANA BEGINS WITH LARGE CROWD

PNG Day: Very Active and Positive

The Market in Depth

PNG Day opened ANA week as the 94th annual event began with guarded optimism. Most dealers have a positive attitude and feel the whole week will be active. The PNG crowd was of a typical size (the one-day event does not have as many bourse tables as the ANA), although there seemed to be more business being conducted than the last few PNG days. The only thing that might have slowed activity a little was the lack of fresh material. More next week . . . . .

Could it be that common date MS-65 silver dollars are too high? Have they reached their peak? Or, will they soon? With the lowest priced MS-65 silver dollar now bid at $465 (1881-S), one has to wonder if the gem dollar market may soon run out of steam. This may or may not be the case, only time will tell, but, what of the better date dollars which are more difficult to locate in MS-65? These better dates have not increased at the same rate as so-called common dates, yet, they are tremendously difficult to locate by comparison. Herein lies the answer, in that the common dates are easier to locate, so dealers can supply their clients' needs. Therefore, the better dates get somewhat ignored and only increase minimally.

For example, on January 4, 1985, the 1881-S was bid $240 in MS-65, while the 1890-S was $550. Today, the 1881-S is bid $465, an increase of 94% and the 1890-S is $920, an increase of 67%. This bid for bid ratio was 1:2.29 in January and has fallen to 1:1.98 currently for the 1881-S to the 1890-S respectively. But, in actuality, the 1890-S is found in MS-65 at the approximate rate of one for every 100 1881-S dollars. This method of figuring ratios should be analyzed very carefully because of the different factors involved, such as, the overall mintage and meltdown figures and the likelihood of finding future hoards of a particular issue.

This theory of collectibility was fine in the past (up into the 1970's), but now prices are based on availability i.e., supply and demand. The collector market buys one specific date at a time, whereas, the investor may buy many coins of the same date. There probably are more collectors than investors, but there are very few times when a particular better date (or rare date) is influenced by the needs of the collector. Thus, prices stay relatively the same or increase minimally. Whereas, the common dates are receiving tremendous demand by many, many dealers for their investors. Therefore, as needs and sales increase, supplies may drop unless prices increase enough to draw out larger supplies. There may be two, even three conclusions to draw from this rhetoric: 1. MS-65 common date dollars can continue to increase based on supply and demand. Better dates will only increase as on afterthought because they have to be somewhat higher than commons. 2. Common date dollars can become over exposed and run out of steam---and crash, thus taking some of the better dates with them. 3. Common dates can remain at this current base level and better dates will eventually seek their own level relative to rarity at some future point in time.

Remember what Robert A. Williams once said, "The only time you can lose money, is when greed sets in; you cannot lose money taking a profit".

This Week's Market

CENTS: Many of the same BU Lincoln rolls remain on sell lists as dealers try to sell unwanted inventory. The 1936-P and 1937-S are both lower at $55 per roll. The 1943-P has also fallen, while the 1960-P sm date has increased to $72 bid as several dealers try to locate various quantities.

NICKELS: It's sure nice to see an orderly market for a change. It may not be the most popular series, in fact, BU Jefferson nickel rolls are among the least active, but, this week indicates a proper balance of pluses and minuses. Those rolls wanted at higher bids are 1940-D, S, 41-S, and 52-P & D. The rolls suffering setbacks were 1938-D, S, 1942-P ıII, 47-S, and 51-S.

DIMES: Original Mercury dime rolls are wanted by any number of dealers at prices ranging from bid to ask depending on whether there are split bands in the rolls or not. Split bands are not necessarily found in original rolls, and as such, the rolls do not have to contain split band specimens to command bid or so. A handful of dates have received advanced bidding this past week. Please check pages 2 & 3.

QUARTERS: BU Washington quarter rolls remain solid at current levels as dealers will buy just about any date available at bid or more. Moreover, any deals found contain mostly rolls in the 60's. The 1955-D roll has advanced to $175 bid.

HALVES: The main news here revolves around two major dealers in a price skirmish. One will pay $36 for common PR-65 Franklin halves; the other will sell the same coin at $32. They both describe the coin as, "no spots or hairlines". This puts us in a quandry and poses the following: Bid - $36, Ask - $32. We don't know what keeps these two apart???

DOLLARS: Several MS-65 dollars are higher this week including all of the 1878's and the 1882-CC, 83-CC, and 84-CC. A number of rare dates have also increased: 1893-CC, 96-O, 1901-S, and 03-S.

The Ike dollar market is mixed as buyers and sellers converge at bid.

PROOF SETS and MINT SETS: Silver proof sets are holding steady at this time and several buyers are active, especially for sets 1950 to 1964.

Mint sets remain subdued except for the 1981, which is extremely hot. There are several dealers with orders for at least a thousand sets each. Bid is now $13.25.

COMMEMORATIVES: MS-65 price levels seem to have hit a resistance level. This isn't to say that the market has slowed, on the contrary, commems remain quite active at current levels. It's just that most dealers feel that prices are high enough and would like to see them stabilize at these levels for awhile.

TYPE: Several dealers continue to ask for less than "65" type coins. Most of the buy prices are at bid levels, although some indicate they will pay more. There is quite a bit of weakness in half cent thru two-cent pieces in MS-65.

GOLD: The U.S. gold coin market continues to receive advanced bidding for many issues. Gold bullion increasing helps the circulated market quite a bit, but mint state coins are also searching higher ground as this area still blazes.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $339.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 ... have minor bag marks ... above average ...

MS-63 (CHOICE UNCIRCULATED) ... have minor bag marks ... above average ...

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

The Best Keeps Getting Better.

Get NCI Insured Authenticity... With New Lower Rates!

Get the industry's first insured authenticity certificate for less than ever! For only $10 plus 2% of the stated value (minimum of $20), you can get an independent opinion on the grade of your coins and an authenticity certificate insured by a major U.S. insurance carrier – the NCI Grading and Authenticity Certificate. That's up to 50% off of our old prices, depending on the value of your coin!

New Technology Can Save You Worry.

Even the best should strive for more – and NCI is giving their customers more, with the installation of a new photographic system that records the best possible image of your coin for you. The speed and accuracy of this new photographic equipment means even faster and more detailed analysis of your coin.

Faster Turnaround Can Save You Time.

Our services will speed your coins, complete with certification, back to you within *eight business days.* Should there be some reason we are unable to return your coin within ten business days, we pay your certification fee. If we're staking our hard-earned money on such convenience, shouldn't you?

Insured Authenticity Can Save You Money.

Our authenticity opinion is insured by a major U.S. insurance carrier for the stated value of the coin, plus 15% per year. Such confidence is easy to come by – when you buy NCI certification at our new lower rates.

Tough Grading Standards Can Save You Surprises.

We're tough, but fair. NCI uses real-world grading criteria. Mechanical considerations such as strike, wear, and bagmarks are carefully reviewed along with toning, luster, and eye appeal, to give you the most accurate grading possible.

Sell for the Same Grade as Certified.

This year's Official 1985 ANA Auctioneer, Heritage Numismatic Auctions, has made an agreement to consign any NCI coin at the stated grade for any Heritage sponsored sale, no matter who owned the coin before you. Plus, there's a 20% discount on the seller's commission for any NCI coin sold at a Heritage Auction!

More and more of today's coin buyers are turning to third party opinions before they put their money down. NCI's new lower rates, better-than-ever photography, and insured authenticity give coin buyers a third party opinion they can trust. Get the third party that's the first choice for a growing number of numismatists – call Tim LaPointe or Mike Sherman at 800-872-6467 for more information, today.

Take Advantage of Our New Lower Rates and Mail Us the Application on Other Side.

Expert grading in record time.

NUMISMATIC CERTIFICATION INSTITUTE

The Heritage Building • 311 Market Street
Dallas, Texas 75202
(214) 742-2200 • (800) 527-9250

Provided that the Numismatic Certification Institute (The Institute) agrees with your grading of the submitted coin (if requested) and determines that the coin submitted is genuine, you will be issued a photographic certificate which shows a color photograph of the coin, its certified grade, and the value of the coin you have stated on the reverse side of this form. The Institute will guarantee that the certified coin is authentic, and will insure the authenticity of the coin up to the value you stated on the reverse side of this form, plus an amount equal to 15% of such stated value per year for each year the certificate has been outstanding before the coin is proven counterfeit. The value you stated will also represent the amount of insurance coverage against theft or other loss of your coin while in the possession of the Institute. If your coin is lost or stolen while in the possession of the Institute, such stated value shall be paid to you in full satisfaction of the obligations of the Institute. The Institute does not guarantee or warrant that the coin certified has or ever will have a market value in the amount you have stated as its value. The Institute only uses your stated value to determine the amount of insurance coverage and the fee to be charged.

The Institute will arrange for the certified coin to be offered for sale at public auction, at your option, through The Institute's affiliate, Heritage Numismatic Auctions, Inc., at the same grade as certified at a discount of 20% off of the seller's commission. For your option to be exercisable, however, the coin must be maintained in the same condition as it was as of the date of certification. Your certificate, along with the option to sell at public auction, is fully transferable.

If The Institute cannot agree with your requested minimum grade, then you will be charged a $5 fee, $2.50 for postage and handling, and the registered mail fee. If The Institute cannot certify your coins as genuine, and provides you an opinion that the coin is not genuine, then you will be charged the full fee of 2% of Owners Stated Value Plus $10 per Coin, $2.50 for postage and handling, and the registered mail fee. In order to transfer a certificate to another owner, please return the original certificate along with the $10 transfer fee.

Grading is an art, not a science, and therefore the opinion rendered by this certificate may not agree with the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. For a permanent record, the grade assigned on this certificate on this date represents our opinion which is based on our experience and prevailing market standards. Grading standards have changed in the past, and as time passes and market conditions change over the years, they may do so again in the future.

The Institute guarantees that within 10 business days of receipt of your coins and your completed Request for Certificate, your coins and your certificate (or a disclaimer of opinion or an opinion that the coin is not genuine) will be sent by Registered mail to you. If the Institute fails to meet this deadline, your certification fees will be refunded when your coins are returned.

LAST YEAR OVER 14,000 PEOPLE ATTENDED THE F.U.N. CONVENTION

THIS YEAR PROMISES TO BE EVEN GREATER

CONSIGNMENTS NOW BEING ACCEPTED FOR THE 1986 FLORIDA UNITED NUMISMATIC CONVENTION AUCTION

It is with great pleasure that Mid-American Rare Coin Auctions, Inc., announces it has been awarded exclusive rights to conduct the 1986 F.U.N. Auction to be held in Tampa, Florida on January 3 and 4. This prestigious Winter Convention and Auction are traditionally the best-of-the-year, and are looked upon by collectors and dealers alike as the numismatic barometer for the upcoming year.

MONUMENTAL SALE PLANNED

Mid-American Rare Coin Auctions is planning a monumental sale for this year's convention. The Florida rare coin market is one of the largest and strongest in the nation. With an improving marketplace, this year's Auction could provide us with Record Breaking Prices and Attendance! There may be no better time to sell your rare coins in the near future than the 1986 F.U.N. Sale.

LET MID-AMERICAN RARE COIN AUCTIONS, INC. INTRODUCE YOU TO OUR "CLASSIC STYLE" CATALOGUE

MARCA has created one of the most useful and beautifully designed catalogues in the industry. For the lowest commission rates in the business (10 percent or less) our innovative catalogue includes:

- Thorough research and narrative descriptions by Ron Guth (winner of ANA's 1983 Wayte Raymond Literary Award) and Jeff Garrett (one of the country's most respected numismatic dealers).
- Extensive photography by Tom Mulvaney (one of the most experienced photographers in the numismatic field). Major lots are shown in greatly enlarged full-color!
- Accurate and consistent grading. Our firm was the first to adopt the ANA's split grading system. We believe this system is the best way to fully describe consignor's coins.
- Limited number of auction lots. Potential bidders are often discouraged and overwhelmed at the prospect of examining a massive 4-5,000 lot auction. Choice material attracts the buying audience needed for your coins to realize the most in today's market.

To receive the most for your rare coins at Auction, call Ron Guth, Jeff Garrett or Tom Mulvaney TOLL-FREE at 1-800-223-5954 TODAY! The number of lots that we can accept for this FABULOUS sale is STRCITLY LIMITED so we urge you to contact us AS SOON AS POSSIBLE.

See Us at this year's A.N.A. Convention, Table #939, or call us directly during the Convention at 301-234-1589.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

UNC TYPE COINS

Superb (MS-67) specimens often bring far more than the MS-65 prices listed below.

HARD WORK MAKES FOR SUCCESSFUL ANA

Original BU Dollar Rolls Lower, But Active

The Market in Depth

It wasn't a frenzy. Just plain busy. Consistent. Hard work. Constant buying and selling. No complaining, too busy for that. Not all coins realized bid, but many coins did resell to other dealers on the bourse floor, each time at higher levels. For some, it was their best show ever. Others reported near exhaustion by Friday with two days to go. The Baltimore ANA has come and gone. It left the majority of dealers with the impression that the market is as healthy as it has ever been. No, not everybody will agree on grading, they never will. Every dealer may not have the customers to warrant paying the bid prices in some series. And yes, a portion of the business is transacted at a percentage under bid. That is why there are so many wholesalers. Dealers see coins differently. If grading should become computerized, there would be no need for all the wholesalers, just professional sales people selling a stock type certificate representing a computer coin.

At a show of this magnitude it becomes apparent that not all dealers can sell to one another. There may be a conflict in personalities, business concepts, attitudes, and/or grading. When this occurs, the wholesalers seek out other buyers. This represents the secondary market, which is now within 10%-15% of bids for type, gold, dollars, walkers, and commems, all in MS-65. The secondary market then sells to the high buyers or takes the coins home to waiting clients. If the coins are nice enough to meet the higher buyers' standards, then these are the ones usually sold to investors/collectors, who may someday sell them back to their dealer/advisor.

In general, the hottest series in Baltimore, was U.S. gold in all grades. Most dealers could not buy enough, especially in mint state. Another active area was exceptionally clean Morgan dollars. A couple of dealers estimated that at least 300 MS-67 common date dollars changed hands at $1000 or more. An 1882-S traded hands no less than 4 times, starting at $500 and last verified at $3200. Gem commemoratives experienced the same tales. One well-known dealer sold an Antietam for an over-bid $1150. One's assumption of exceptional quality was verified as it later wholesaled at $3500. Nevertheless, the grandiose coin of the ANA convention was a proof 1894 Morgan dollar. Its quality leaves one speechless; its $22000 purchase price seemed almost nominal. Some have been seen with a little more cameo, but none as mark-free. It is definitely one to be used as a benchmark of perfection. Possibly the finest proof dollar known.

The ANA Auction was conducted by Heritage Numismatic Auctions, Inc. The total price realized, which includes the 10% buyers' fee was $4,765,172.50. The following is a list of highlights with prices realized.

Denomination	Cataloguer's grade	Price realized
1864-L Indian Cent	PR-63/63	$ 8,525
1918/17-D Buffalo Nickel	MS-63/63	$10,450
1853 A/R Seated Quarter	MS-65/65	$10,780
1877-S Seated Quarter	MS-65/65 (NCI)	$ 4,950
1942 W.L. Half	PR-65/65 (ANACS)	$ 1,375
1881-S Morgan Dollar	MS-65/65 P/L (NCI)	$ 523
1890-S Morgan Dollar	MS-65/65	$ 1,210
1928 Hawaiian	MS-63/63 (NCI)	$ 990
1936 Columbia PDS Set	MS-65/65	$ 4,070
1925 Ft. Vancouver	MS-65/65	$ 1,540
1879 $4 Stella Gold	PR-63/63	$38,500
1899 $20 Gold	PR-63/63	$17,600

This Week's Market

CENTS: BU rolls of Lincoln cents saw no changes this week as dealers ignored this series.

NICKELS: BU Jefferson nickel rolls was another series which was left alone. Original rolls of Buffalo nickels were seen to trade in the current bid/ask ranges at ANA.

DIMES: BU Roosevelt and Mercury dime rolls are very active at current levels. Buyers were seeking unpicked rolls at ANA and sellers usually wanted ask or more.

QUARTERS: BU Washington quarters do not show signs of sluggishness as the lack of pluses might indicate. They were simply ignored this past week, but definitely not forgotten. There are bidders for most dates, but rolls remain elusive.

HALVES: Gem Walking Liberty halves were showing very positive signs at ANA. Coins that fit the grade were not that plentiful, but when found were quickly purchased by the many high buyers.

DOLLARS: After seeing the large numbers of coins changing hands at the ANA at the $500 level, it would be difficult for anyone to argue with the MS-65 price of common date dollars. For those dealers who could not attend, there were many $500 buyers. On the other hand, many dealers bought and sold coins that were priced between MS-64 and MS-65 money.

A general lowering of BU dollar rolls would seem to indicate a negative market. Nevertheless, this was quickly turned to a positive as dealers realized that a large number of original bags were dumped on the market at the same time. The usual high buyers did not absorb these so prices fell markedly. Dealers did not stop to complain, they just lowered their buys and sells and went about doing business. So, although lower, BU dollar rolls remain quite active.

PROOF SETS and MINT SETS: There are several buyers of 1950-1960 proof sets at current bids, with a few buyers of specific dates above bid.

Mint sets were somewhat quiet except for the 1981, which is now up to $13.50.

COMMEMORATIVES: The $10 Olympic gold coins (P, D, S) continue to sizzle. When one bidder slows, another takes up the slack. The mintages are so low that if everyone who attended the ANA Convention purchased a single set, there would be no sets left.

TYPE: There are at least three bidders currently for PR-65 Three-cent nickels. The following description may explain what the buyers are looking for, to the reader. "It must be fully struck with virtually no hairlines. Any hairlines must be very minor. The coin must be bright with a reflective surface. But they don't have to be as reflective as a Barber dime. Absolutely no spots on the coin and the strike must be full. Any planchet defects or lint marks will probably get the coin rejected."

GOLD: Aside from mint state gold continually being bought at over bid levels, AU $1 gold type II and $3 gold are constantly being sought at upper levels. There were specific reports of MS-65 coins being sold at ANA, dealer to dealer, at figures way above ask because clients do not wish to wait any longer.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $336.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls--dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (EXTREMELY FINE) Will have many bag marks; may show on a few high points of strike. Should have full luster. These are most above average coins.

MS-63 (CHOICE UNCIRCULATED) Will have few bag marks; may show on a few high points of strike. Should have full luster. These are most above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

"YOUR NEWSLETTER IS JUST GOSSIP. I DON'T WANT THIS!"

That's one man's opinion of a recent issue of the Bruce Amspacher Investment Report. I thought a few** other **opinions might interest you, too.

"Is there some way you could make the BAIR a weekly? Ten times a year just isn't enough! I love it."
—A well-known Washington dealer

***"We think your newsletter is the best because it's really** fun."*
—An Arizona collector/investor

"Your newsletter has more solid information and less hype in it than any of the others. I should know, because I subscribe to them *all*."
—A California dealer

"I find the BAIR to be both informative and extremely well written. You are a quite literate fellow."
—An Illinois investor

"The BAIR is great! Bruce Amspacher is one of the sharpest coin minds in the country. He is also one of the best writers in the coin industry. I urge you to give Bruce a try."
—David Hall

"I highly recommend the BAIR. Written by one of the great minds in the business."
—Robert G. Allen
author of "Creating Wealth"

"I have found the BAIR to be truly informative, interesting, and enjoyable."
—A California collector

"I told my employee that if he took the BAIR home again before I had a chance to read it, he'd be out on the street. So what happened? My** dad **took the next two issues before I got to read them. I give up!"
—An Oklahoma dealer

"Your ability to pick winners in the numismatic marketplace is absolutely amazing. My husband and I have subscribed since the first issue and we wouldn't be without your publication."
—A Georgia investor

"We got tired of fighting over the BAIR and decided to order two subscriptions. It's worth it."
—A California dealer

"We take two subscriptions in order to keep peace when the BAIR arrives. I'll bet no one else is that crazy or extravagant."
—An Ohio investor

"Bruce Amspacher [is the] finest of newsletter writers."
—David Ganz
Coin Market Insider's Report

"When the BAIR arrives, everything else in the office *stops.* It's funny, informative, and extremely well written. You are without question the best numismatic writer around."
—A New Hampshire dealer

"This is a little note to express my satisfaction with the scholarly presentation [of your publication]. There are many besides me that take our hats off to a pro."
—An Ohio collector

"I continue to enjoy each issue as it arrives."
—Q. David Bowers

"I'll vote for the BAIR as the best on the market. I have learned more about coins through you than I did on my own in the 20+ years prior to your acquaintance."
—A Virginia collector/investor

"It's incredibly innovative, clever, and well written."
—A Louisiana dealer

Is the BAIR *really* that good? There's a *good chance* you'll think so. If you'd like a sample copy, just write or call 1-800-821-3985.

Have you missed any of these important reports?

1. THE STATE OF THE RARE COIN MARKET, DECEMBER-JANUARY 1985, 23 PAGES, $12. This jumbo issue is a must for EVERY serious collector/investor. A timeless guide, this report covers a multitude of invaluable topics including the long term outlook for numismatics, the basic concept of investing/collecting in coins, how promoters try to manipulate YOUR money, a hard look at ANACS and other "independent" grading services, the historical price performance of rare coins, how coins will be graded in the future, WHY you should buy coins, "guaranteed" buy-backs, how not to limit your marketplace, the great "MS-65" silver dollar promotion, the value of subscribing to newsletters, how coin prices are determined, how to avoid wasting YOUR money, the key to becoming a successful collector/investor, and much, much, more!

2. THE RARE COIN AUCTION MARKET, JUNE 1985, 16 PAGES, $6. Let one of America's foremost experts on the auction scene, Q. DAVID BOWERS, of Bowers and Merena, Inc., lead you through the ins and outs of this fast paced marketplace. This fascinating report covers such topics as how to be a smart bidder, how to consign your coins to auction, how to pick the right auction house for you, how to study a lot BEFORE you bid on it, auction rules to remember, insider's tips, a look behind the auction scene, how to avoid wasting your money, how to avoid grading mistakes, information on mail bids & floor bidding, the option of having a trusted dealer bid for you, and much, much more. Read this informative report and LEARN from a true expert BEFORE you make a serious mistake!

3. THE NATIONAL COIN SHOW CIRCUIT, APRIL-MAY 1985, 20 PAGES, $12. Learn from coin show dealer VINCE BLUME'S experience of attending over 275 coin shows! Find out what the insiders know about today's trend setting marketplace! This captivating interview explores the workings of the major show circuit, grading at shows, what's hot and what's not, what it takes to get "MS-65" money for your Morgan dollars, what goes on behind the scenes at a major show BEFORE the doors are opened to the public, wholesale vs. retail, definitions of a "major" & "local" show, how to shop at a show, coins that are underrated, and much more! Plus a report on the current status of BU rolls, type, mint state gold, proof sets & singles, commemoratives, 20th century, split band Mercury dimes, and MS-60, MS-63, MS-63+, MS-64, and MS-65 Morgan Dollars!

4. HOW TO LOOK AT A COIN, JULY-AUGUST 1985, 20 PAGES, $12. This highly informative and easy to understand report by RAY MERCER takes you on a step by step journey through the process of learning how to skillfully grade your coins. In depth topics include detailed explanations on luster, strike, die definition, focal points, detracting marks, die abrasion, eye appeal, and toning. Dipping and cleaning are frankly discussed along with the need for proper lighting and the absence of stress. Learn how some market promoters play the game of changing the "grading label" on your coins to support the illusion of steady, wholesale price increases. This timely report is a must for every collector/investor who seriously desires to improve upon his/her grading skills and understand our ever-changing marketplace.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63--but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

UNC TYPE COINS

Superb (MS-67) specimens often bring far more than the MS-65 prices listed below.

U.S. GOLD WITH EYE APPEAL REMAINS STRONG

Proof Sets and Olympic Gold Under Strong Buying Pressure

The Market in Depth

The CDN gets letters everyday from various parts of the country. You know, you readers never ask "Who are the cheaper buyers?" What you do ask is, "Who are the most reputable dealers?" or, "Who are the higher buyers?" Obviously, you do not want to know the average or composite of prices paid, you want to know the highest prices paid. Nevertheless, we cannot answer either of the previously mentioned questions because of our integrity and fairness to all dealers. We cannot recommend one dealer over another, even though a dealer's reputation will dictate his image to the other members of our industry. For these same reasons, we cannot name the higher buyers as this would be considered favoritism.

Since the CDN's inception, it has always listed the highest buyers' legitimate bids. (And it is our job to report those highest legitimate bids. It is up to the individual dealer to determine prices at which he buys and sells coins.) When the CDN began in 1963, most information came from the teletype systems. As more numismatists became dealers, the business expanded. Valuable information became available at coin shows, auctions, and everyday dealer-to-dealer transactions. All of these methods of gathering information are important, moreover, with more than 5000 professional coin dealers in this country, it would be negligent to just use information received from the teletype systems with a total of only about 500 active members. As anyone can see, we would be neglecting 90% of the dealers and their businesses. As it is, we view auction lots to determine actual grades vs. listed grades, we view the quality of coins that sell at coin shows and the coins that may be rejected by the higher buyers; all this to make sure that bid prices are accurate. No, not all dealers can afford to pay bid. Not everyone can be the high buyers. But, if every dealer in the country paid the same price for coins, then 90% of the numismatic jobs in this country could be eliminated. This is why this industry has expanded over the last ten years. There is a healthy difference of opinions and viewpoints.

To further explain by example, let's say that all dealers pay $12 each for 1981 mint sets. Now, Dealer 'A' gets an order for 2000 sets. Where's he going to get them? Most dealers are in business to make a profit. So, for him to buy these sets from other dealers, he has to raise his price. Now, Dealer 'B' gets an order for 1000 sets. He has to raise his price above Dealer 'A' or he won't get his order filled. These two dealers will go back and forth trying to fill their orders and in the meantime the price is going up. Thus, two dealers control this market. When they fill their orders the prices should remain stable until it happens again or it goes the other way and quantities begin selling at less than bid. From a seller's point of view, it would be nice if all dealers paid the same price, but from our industry's viewpoint, that's why it's called bid and ask.

This Week's Market

CENTS: Buyers of BU Lincoln rolls continue to take a "wait and see" attitude. The only plus sign appears for the 1960-P sm date, now bid at $75. Other than this, the only interest shown is a buyer for numerous specific dates of unspotted rolls at 20% under bid. No sellers have been seen.

NICKELS: BU Jefferson rolls are relatively quiet, with the only changes being the 1939-S and the 1942-P tII, now at lower levels.

DIMES: Original Mercury dime rolls are still on a number of want lists at current levels or higher. The 1944-S roll is the only one actually higher this week.

BU Roosevelt dime rolls are easily saleable at today's levels, but are not frequently offered. Buyers outnumber sellers by a large ratio. The 1946-S roll is very popular if unpicked, but higher prices have not been recorded.

QUARTERS: Although changes are lacking, BU Washington quarter rolls are not being offered on a regular basis. The most commonly available rolls are those dated 1960 and after.

HALVES: Competition is strong among several major dealers for gem Walking Liberty halves. This is one of the most attractive U.S. coins ever minted and is very popular with collectors and investors. Over the last year, the quantity of gem specimens has really been depleted.

BU Franklin rolls are again receiving attention at higher bids. Like silver dimes and quarters, halves are not often available on a regular basis. Those rolls higher this week are 1948-P, D, 51-S, 54-P, S, 55-P, and 56-P.

DOLLARS: MS-65 prooflike dollars are showing several plus signs for specific dates. Generally, the common dates are bid higher as dealers attempt to purchase what few pieces may be available. The psychology of raising bids usually has an adverse effect on sellers as they feel ensuing weeks will find higher levels.

Proof Ike dollars (40% silver) seem to be weaker as buyers continue to bargain-hunt and sellers do appear occasionally at discounted levels.

PROOF SETS and MINT SETS: Proof sets from 1950 to 1955 are awfully strong at the moment. There are numerous dealers in the market for large quantities, with the rest of the dealers needing an occasional set or two to fill want lists.

COMMEMORATIVES: The Olympic $10 gold coins are under tremendous buying pressure. A recent poll taken of several coin shops indicates there are plenty of customers waiting for dealers to pick up pieces or sets for them. This has caused the P, D, S coins to advance again this week. The 1984-D and S dollars have also seen increased activity this week.

TYPE: Proof and MS-60 and 63 type coins are beginning to exhibit more activity each and every week. There are several buyers at current levels with at least one dealer offering to pay "more than anyone else". At this point in time, some dealers feel that the buyers are really looking for coins that grade at least one point higher than the buyer is willing to pay.

GOLD: Week after week, mint state U.S. gold coin prices increase. Whether gold bullion goes up or down does not change the buying status of dealers for uncirculated gold. It is also becoming more apparent that dealers are using in-between prices for MS-64 gold.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $334.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions but none major. May have a few minor luster contact marks. Definitely better than MS-63 at first eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major deficiencies in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must be eye appeal.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65 but with the additional feature of deep mirror proflike surfaces both sides.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65 but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

COLLECTORS AND DEALERS CONTINUE SEARCH FOR GEM MATERIAL

Many Areas Bright, But Quantities Limited

The Market in Depth

As late as December, 1973, the CDN reported prices in most series as "Choice BU". By this time, the use of the MS grading system was spreading throughout the industry. The use of this system was necessitated by the fact that there was such a wide variance in pricing of coins, supposedly, grading the same. Refined grading would make for more precise pricing. In December, 1974, the CDN described the two most frequently used MS designations. MS-60—"an uncirculated coin, which for any of a number of reasons, cannot be called choice. It may be a poor or only an average strike; it may not have full original lustre or it may have too much evidence of contact with other coins. Still, and very important, it is not an AU or a 'slider'—it is uncirculated." MS-65—"a strictly choice BU coin, well-struck with full lustre and few if any marks or abrasions."

There are a couple of points to be made concerning these descriptions. First, the MS-60 definition remains the same today. This is very objective: The coin is either new or used. If it is used, it cannot be an MS-60! Second, today MS-65 is called gem, while the in-between grade, MS-63, is called choice. (MS-63 became a necessary grade when the gap between prices for MS-60 and MS-65 widened.) However, one will note that the overall grade description for MS-65 remains the same; "few if any marks or abrasions". Yes, coins grading higher than MS-60 fall into the area of subjectivity. But, if this description for MS-65 is strictly adhered to, subjectivity is minimized. And anybody who says MS-65 can have several bag and/or contact marks, generally overgrades his coins when selling. One might note, that when overgraders buy MS-65 coins and put their money on the line, their grading suddenly becomes very strict.

The main point of all this is to confirm the relative rarity of coins as the quality increases. This, by no means, is an endorsement of MS-65 coins. Any grade of coins can be a good deal if priced accordingly. But, when a "gem BU" silver dollar is advertised for $25, one has to realize "you get what you pay for". And if all of the coins that are advertised as MS-65 or PR-65 actually were '65', then 65's would be considered very common coins today. Moreover, if one concludes that MS-65's are common, why are so many large investment houses backordered 4 to 8 weeks? Most get further backordered daily. Some go so far as to send letters of apology to their clients; they explain that despite this normally being a slow time of the year, supplies of gem MS-65 coins are at an all time low. If and when these dealers get caught up on their backorders would be an important bit of information to possess.

This Week's Market

CENTS: Most activity here is once again of the offer to sell variety. Various deals are seen over and over again at bid or lower. This week finds a few dates with lower bids: 1936-P at $50, 1952-D at $4.75, and 1956-D at $1.85. There are several late date rolls at lower levels also.

NICKELS: This past week found BU Jefferson nickel rolls receiving a little more attention than usual; even if some of this increased activity was at lower levels. The most noticeable increases were for the 1940-D, S, and 1950-P rolls.

DIMES: Although original Mercury dime rolls are very active (at current levels), only a few specific dates have increased. The 1944-S, 45-D, and S all are showing a higher $670 bid per roll.

Most dealers are "standing pat" at current levels for BU Roosevelts. The most elusive roll currently is 1948-P, now wanted at a stronger $325 bid.

QUARTERS: The only real excitement in this area occurs for the 1958-D (now bid at $110 per roll) and the 1955-D which remains the same, but finds several buyers and sellers within the bid/ask range. Otherwise, the remaining rolls continue saleable at bid.

HALVES: Original Walking Liberty halves continue to show strength at current levels. When an occasional roll or two are offered near current levels, the message is usually only seen once as the rolls will sell immediately. Last minute note: One major buyer has just increased his buy prices on many rolls from 1940 to 1947.

DOLLARS: Although changes are not readily apparent in the MS-64 column, activity remains constant within the current bid/ask ranges. Several MS-65 dollars are higher and at least one bidder constantly advertises to buy any superb MS-67/67 silver dollar (with ANACS papers) that meets his criteria for a minimum of $1500. And that's not even prooflike.

Proof 1979-S, 80-S, and 81-S SBA dollars are wanted by several dealers. Bid is a higher $5.40 each.

PROOF SETS and MINT SETS: Early proof sets up to 1964 are constantly in demand, but most transactions are limited by the small quantities available. The late date proof sets are mixed: 1979-S, 80-S, and 81-S are higher, while 1982-S, 83-S, 84-S, and 85-S have noticed a drop in demand.

Several mint sets are on the minus side this week with the exception of 1976 and 1981. Please check page five.

COMMEMORATIVES: Silver commemoratives are beginning to show an increase in bidding, not just for MS-65's, but also, many XF/AU issues. The majority of XF/AU commems have remained at stagnant levels for a very long time.

When will they stabilize? That's the question many dealers are asking about the proof 1984-P, D, and S $10 Olympic gold coins. The answer may lie in the total coinage available. They are very limited and it is quite unlikely that anyone could have substantial quantities in inventory.

TYPE: Mint state type coins are actively sought at current levels, but it seems transactions are few and far between; mostly because buyer and seller have a difficult time agreeing on the grade. Obviously, the buyer wants as nice a coin for his money as possible. On the other hand, the seller wants more money for the nicer coins and would rather get rid of low-end coins. Needless to say, this market is somewhat stalemated.

GOLD: A number of major rare coin companies have begun programs over the last several months whereby, they guarantee the grade and authenticity of the gold coins they sell. This has done wonders for this area of numismatics. Most likely, this is the primary reason that all grades of mint state gold continue to enjoy such strong demand. This week finds several more plus signs in the gold series.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $320.00 per ounce.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Will be sharply struck, may show only a trace of luster, contact marks on high points of design and/or rim or other marks, but not enough to be considered a mint error. Should be free of scratches, nicks, etc. on the fields. Average coin.

MS-63 (CHOICE UNCIRCULATED) Will have minor bag marks, may show only a slight weakness of strike. Should have full luster. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

THE INTELLIGENT APPROACH TO RARE COIN INVESTMENTS

WORLDWIDE RECOGNITION

Through on unprecedented endorsement, one of the world's largest insurance corriers will issue insurance ogoinst oll risk of physicol loss or domoge for every coin certified by Americon Certification Service, Inc.

Insuring your coin ocquisitions for their FULL VALUE - AS GENUINE - and in the SAME GRADE AS CERTIFIED, ACS is the only groding bureou to ever receive internotionol recognition by this London bosed institution.

INSURE YOUR INVESTMENT

ACS certified coins ore in greot demond. As o result, ACS certificotion is an importont element for successful rore coin investments. You, too, moy rank omongst the most well informed, soundly guided ond prosperous investors involved in rore coins. Your intelligent opprooch is the security of ACS certification combined with the notional occeptonce of ACS certified coins—the imperotive you simply connot offord to be without.

While becoming the industry's most reliable grading bureau—ACS offers:

1.) Four color obverse ond reverse photographs to unmistokobly identify your coin with its certificote.
2.) Lifetime owner's registrotion—fully lominated—impossible to olter ond transferoble upon request.
3.) Grading and authenticotion is performed by eminent experts in our field—not o staff of troinees.
4.) ACS utilizes o specific numerical groding system (e.g. MS-65). ACS does not employ confusing and often misleading "split grades" (e.g. MS-63/65). ACS certificotion is in occordance with the lowest grade opplicable. The only woy to protect the consumer during times of constontly tightening groding stondards.
5.) All coins received are certified ond returned by registered/insured mail within 10 working doys ofter their receipt.

FEE SCHEDULE AND SUBMISSION FORM

INCLUDE:

1) 3% of the value of each cain (the amount you register and insure them for via the mails) with o $15 minimum per coin.

2). First class return postage and registered/insured mail fee (see chart).

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65--but with the additional feature of deep mirror prooflike surfaces both sides.

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63---but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

XF/AU Commems on Many Want Lists

The Market in Depth

What is telemarketing? Telemarketing is the process of attempted sales of a product or service through a communication system. Most notably, it is seen everyday on television where advertising can reach the masses. But, the more recent method of telemarketing is performed by telephone. Reach the masses on an individual basis. But, telemarketing is not new. It has been going on as long as there has been electrical communication; only the terminology is somewhat recent.

Over the last 10-15 years, the term telemarketing has taken on a derogatory connotation. Telemarketing has been abused by shady individuals in order to sell real estate, diamonds, stocks and a host of other get-rich-quick products. But, to the "phone co." telemarketing means profit and additional employment opportunities. To the legitimate professional, telemarketing means more contact with more clients without having to travel. Thus, more profits. To the reputable coin dealer, telemarketing has been going on since the first sale took place over the telephone. It continues today, as professional numismatists speak to their clients over the telephone and describe a particular coin. Now that telemarketing is being performed on a mass uninformed audience, this audience, in some cases, is not being treated fairly. This does not have to be the case. "Guns do not kill people. People kill people." Telemarketing allows the legitimate professional numismatist a means of contacting more potential clients at a savings of expenses; thus, creating more profits. The coin dealer becomes more successful. Would your clients rather deal with a successful dealer or an unsuccessful one??

Many potential coin buyers contact us in order to determine how to select a coin dealer (or what characteristics to look for from a telemarketer). The following prerequisites are those that the majority of the dealers we talked to feel are the most important in satisfying a first time buyer's uneasiness.

1. The dealer should have a successful image in actual results, as well as advertising.
2. If the coin company solicits business by telephone, the caller should be a professional numismatist, not a salesperson.
3. The telemarketing company should be able to give between three and five good solid business references.
4. The principals of the company should have at least five years practical experience and preferably 10 or more.
5. The professional numismatist should be a member of ANA and hopefully some other numismatic organizations. Being a member of PNG would be an added bonus.
6. If selling coins thru the mail, dealers should offer some sort of return privilege so the buyer has an option of viewing the coins and returning them if necessary.
7. Many dealers offer buy-back guarantees; the strength of this guarantee is probably based on reputation and financial condition. Depending on the value of the coins sold, a buy-back is not always necessary, but the buyer of coins should be aware of every available avenue when it does come time to sell.

This is by no means a complete list, but if you follow most of these rules you should be able to make the first time customer, your customer.

This Week's Market

CENTS: One dealer is still in need of at least 6 rolls of BU 1960-Psm.dt. cents, while the rest of this series remains stagnant.

NICKELS: BU Jefferson rolls see limited action and what is seen is very minimal. The 1940-D, S & 41-S rolls are higher this week, while the 1946-S suffered a slight setback.

DIMES: BU Roosevelt dimes are somewhat elusive at current levels, but most dealers are not ready to increase their buy prices. The lone exceptions are 1948-P, now bid at $330 and 1955-S, at $68.

QUARTERS: The 1955-D roll has now reached $200 bid, as a couple of dealers are in constant need of this date.

HALVES: Several dealers throughout the country feel that gem Walking Liberty halves are still a good buy, even though, they have advanced (common dates) $135 since January of this year. Some warn of mark-free "sliders" as being a major problem for this issue. Look for rub on the high points, obverse and reverse. Original rolls continue to top some dealers shopping lists. Neither gem singles nor original rolls are easy to locate, even at the higher levels.

DOLLARS: It has gone almost unnoticed, but the last few weeks have seen the 1881-CC and 1885-CC dollars climb past the 1890-CC and 1891-CC in MS-60. Traditionally, the 1890-CC and 91-CC have been worth more than the earlier two dates, moreso, the 90-CC. Recently, a number of dealers have been putting together sets (1881-CC thru 1885-CC), which has caused the availability of the 81-CC and 85-CC to be somewhat limited. This points out how the "bandwagon affect" can push some dates in a series right past rarer dates. Another date which seems to be ignored at this time is the 1880-CC. The thinking behind the selling of 1881-CC to 85-CC sets is that they can be sold to clients at under $1000 per set. If one or more of the other dates (80-CC, 90-CC, 91-CC) is included, then the price would have to be over $1000 which is the resistance point.

PROOF SETS and MINT SETS: The 1936 to 1964 proof sets remain active and strong at current levels, while 1968-S to date are mixed. One of the most active sets is the 1979-S tII, but most transactions seem to take place between $90 to $92.

COMMEMORATIVES: MS-65 commems continue solidly traded at current levels with just a few plus signs this week. The big news is the amount of plus signs for XF/AU gold and silver commems.

TYPE: When will type make a move? That's the question many dealers are asking about less-than MS-65 type. Many dealers are "talking up" MS-63 and lower type, but very few are putting their money on the line. It almost seems like most dealers are waiting for someone to show them "the way". By the way, several plus signs can be seen for PR-63 type coins this week as attempts are made to stock up before Long Beach in early October.

GOLD: "If we can't find MS-65, we'll buy MS-63." That's what many dealers seem to be saying. Not only that, they are buying MS-60 coins, as well. Type II $1 gold and $3 gold pieces are leading the way in both grades. These coins are extremely difficult to locate in any quantities other than one at a time.

U.S. GDLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $319.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES

$35.00 per column inch, 2 column inches maximum

Advertising space is limited; ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls--dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (ABOUT UNCIRCULATED) Scarcely mark. Slightest trace of wear on high points of design, such as hair above forehead and curls behind ear. Minor blemishes are necessary. Will be bag marked and/or carelessly struck, may not have full lustre.

MS-63 (CHOICE UNCIRCULATED) Will have minor bag marks, may show only a slight weakness of strike. Should have full lustre. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

The Best Keeps Getting Better.

Get NCI Insured Authenticity... With New Lower Rates!

Get the industry's first insured authenticity certificate for less than ever! For only $10 plus 2% of the stated value (minimum of $20), you can get an independent opinion on the grade of your coins and an authenticity certificate insured by a major U.S. insurance carrier – the NCI Grading and Authenticity Certificate. That's up to 50% off of our old prices, depending on the value of your coin!

New Technology Can Save You Worry.

Even the best should strive for more – and NCI is giving their customers more, with the installation of a new photographic system that records the best possible image of your coin for you. The speed and accuracy of this new photographic equipment means even faster and more detailed analysis of your coin.

Faster Turnaround Can Save You Time.

Our services will speed your coins, complete with certification, back to you within *eight business days.* Should there be some reason we are unable to return your coin within ten business days, we pay your certification fee. If we're staking our hard-earned money on such convenience, shouldn't you?

Insured Authenticity Can Save You Money.

Our authenticity opinion is insured by a major U.S. insurance carrier for the stated value of the coin, plus 15% per year. Such confidence is easy to come by – when you buy NCI certification at our new lower rates.

Tough Grading Standards Can Save You Surprises.

We're tough, but fair. NCI uses real-world grading criteria. Mechanical considerations such as strike, wear, and bagmarks are carefully reviewed along with toning, luster, and eye appeal, to give you the most accurate grading possible.

Sell for the Same Grade as Certified.

This year's Official 1985 ANA Auctioneer, Heritage Numismatic Auctions, has made an agreement to consign any NCI coin at the stated grade for any Heritage sponsored sale, no matter who owned the coin before you. Plus, there's a 20% discount on the seller's commission for any NCI coin sold at a Heritage Auction!

More and more of today's coin buyers are turning to third party opinions before they put their money down. NCI's new lower rates, better-than-ever photography, and insured authenticity give coin buyers a third party opinion they can trust. Get the third party that's the first choice for a growing number of numismatists – call Tim LaPointe or Mike Sherman at 800-872-6467 for more information, today.

NUMISMATIC CERTIFICATION INSTITUTE

The Heritage Building • 311 Market Street
Dallas, Texas 75202
(214) 742-2200 • (800) 527-9250

Provided that the Numismatic Certification Institute (The Institute) agrees with your grading of the submitted coin (if requested) and determines that the coin submitted is genuine, you will be issued a photographic certificate which shows a color photograph of the coin, its certified grade, and the value of the coin you have stated on the reverse side of this form. The Institute will guarantee that the certified coin is authentic, and will insure the authenticity of the coin up to the value you stated on the reverse side of this form, plus an amount equal to 15% of such stated value per year for each year the certificate has been outstanding before the coin is proven counterfeit. The value you stated will also represent the amount of insurance coverage against theft or other loss of your coin while in the possession of the Institute. If your coin is lost or stolen while in the possession of the Institute, such stated value shall be paid to you in full satisfaction of the obligations of the Institute. The Institute does not guarantee or warrant that the coin certified has or ever will have a market value in the amount you have stated as its value. The Institute only uses your stated value to determine the amount of insurance coverage and the fee to be charged.

The Institute will arrange for the certified coin to be offered for sale at public auction, at your option, through The Institute's affiliate, Heritage Numismatic Auctions, Inc., at the same grade as certified at a discount of 20% off of the seller's commission. For your option to be exercisable, however, the coin must be maintained in the same condition as it was as of the date of certification. Your certificate, along with the option to sell at public auction, is fully transferable.

If The Institute cannot agree with your requested minimum grade, then you will be charged a $5 fee, $2.50 for postage and handling, and the registered mail fee. If The Institute cannot certify your coins as genuine, and provides you an opinion that the coin is not genuine, then you will be charged the full fee of 2% of Owners Stated Value Plus $10 per Coin, $2.50 for postage and handling, and the registered mail fee. In order to transfer a certificate to another owner, please return the original certificate along with the $10 transfer fee.

Grading is an art, not a science, and therefore the opinion rendered by this certificate may not agree with the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. For a permanent record, the grade assigned on this certificate on this date represents our opinion which is based on our experience and prevailing market standards. Grading standards have changed in the past, and as time passes and market conditions change over the years, they may do so again in the future.

The Institute guarantees that within 10 business days of receipt of your coins and your completed Request for Certificate, your coins and your certificate (or a disclaimer of opinion or an opinion that the coin is not genuine) will be sent by Registered mail to you. If the Institute fails to meet this deadline, your certification fees will be refunded when your coins are returned.

MS-65 PROOFLIKE (GEM UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-65—but with the additional feature of deep mirror prooflike surfaces both sides.

MS-67 & MS-67 PROOFLIKE (SUPERB) Will be 100% fully struck —and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They renge from very scarce to unknown according to date.

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 --but may also include some MS-60 and MS-65 examples. For strictly gredad MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark.

OLY $10 GOLD ELUSIVE AT HIGHER LEVELS

Superior Auction And Long Beach Convention On Next Week's Slate

The Market in Depth

The super Long Beach Coin Show runs the first week in October and many dealers expect this one to be not only the best one of the Long Beach Shows of the year, but probably the best one for the balance of the year. (The lone exception could be the National Silver Dollar Convention in November. It is the only other show this year that competes by number of bourse tables.) Judging by the current needs of dealers, it looks like Proof and MS-60 and 63 type coins will be increasingly active along with the usual, hard to find, '65' material. It does appear that some '65' type coins are beginning to feel some resistance at these higher levels. One reason is that they have increased a large percentage over the last six months. Also, the big investment houses are finding it difficult to place single $6000 coins in $5000 investment packages. The following is a randomly selected list of type coins with a comparison of prices from January 4, 1985 to September 27, 1985.

Denomination	Jan. 4, 1985 Bid	Sept. 27, 1985 Bid	% Increase
MS-65 3-cent silver TI	$ 2700	$ 3850	+43
MS-65 Shield nickel	1500	2100	+40
MS-65 Bust half dime	4500	5600	+24
MS-65 S.L. dime (stars)	2925	5200	+78
MS-65 Twenty cent	5400	7450	+38
MS-65 S.L. quarters w/m	3200	4725	+48
MS-65 S.L. half w/m	4500	5650	+26
MS-65 S.L. dollar w/m	7000	9500	+36
PR-65 Liberty nickel n/c	1950	3225	+65
PR-65 S.L. dime (stars)	5400	8500	+57
PR-65 Barber dime	2900	4000	+38
PR-65 Barber quarter	3600	5100	+42
PR-65 Barber half	4950	6700	+35
PR-65 Morgan dollar	5600	7700	+38

These price comparisons indicate substantial paper profits for properly graded coins. Although current conditions are not weak, there is a certain resistance which could keep some dealers from trying to sell the higher priced types to their clients.

On September 30 and October 1, Superior Galleries will auction the Wyatt Collection. Among the three sessions there are over 100 lots of Colonial coinage and at least 850 lots of half cents and large cents. This could be a tremendous opportunity for the collector to purchase some very hard to find original specimens. There is a sizable quantity of Matte proof Lincolns. Also there is a long run of type coins thru silver dollars, with over 60 Bust dollars from 1795 to 1803. In addition, there are over 200 commem lots and 300 U.S. gold lots. In all, there are over 3000 lots.

This Week's Market

CENTS: BU Lincoln rolls remain unchanged this week as dealers practically ignore this series.

NICKELS: It seems that many areas of the market are not showing any demand at all---this is the case with BU Jefferson nickels. Unless it is one of the often recommended or sold glamor areas of the market, most dealers complain that the market is very quiet.

DIMES: Original Mercury dime rolls are on various dealer want lists at bid to ask levels depending on degree of originality. A few dates are bid higher as some dealers feel that these dates are underpriced: 1938-D, S, 1945-D and S. BU Roosevelt dimes continue steady at current levels.

QUARTERS: Action is a little sparse this week, but most rolls will still command bid prices. The single exception is the 1946-S which fell to $300 bid. The 1955-D and 58-P remain the most active on a day-to-day basis.

HALVES: BU Franklin rolls are not in abundant supply at current levels, as the majority of sellers want at least ask. The single date wanted at a higher bid is 1948-P at $405.

Many dealers continue to raise their buy prices in hopes of prying loose some quantities of gem MS-65 Walkers. Sure, there are always large supplies of "close" coins that some dealers will sell at discounted levels, but when the MS-65 prices increase, the close coins will still be discounted. Original rolls are still very much in demand in the bid/ask ranges.

DOLLARS: Believe it or not MS-65 dollars are hot---Ike dollars. There are at least 5 buyers now of MS-65 Ikes. The numismatic community may not be ready for it yet, but this market is beginning to get a lot of exposure. Many dealers are recommending clients to get in on the ground floor while prices are low. Reported studies indicate a very low percentage of gem 65s when a magnifying glass is employed. "Grade just like Morgan dollars", is a phrase commonly seen.

Advanced bidding has slowed tremendously for MS-65 silver dollars. This breathing period is one that has been predicted by various dealers across the country. Prices continue strong at current levels and a stabilizing period could be considered quite healthy for the market.

PROOF SETS and MINT SETS: Early proof sets remain quite strong with the 1954 and 55 even higher this week. But, the 1961-64 are seeing numerous sellers at discounted levels. Most offers to sell are for quantities of 50 sets or more.

COMMEMORATIVES: Several XF/AU silver commems are higher this week while MS-65's are very much in demand at current levels. The proof $10 Olympic gold coins just keep right on advancing, week after week. One has to wonder how long this can continue without a breather. Keep in mind, mintages are quite low. New bids are as follows: 1984-P/$850, 84-D/$750, and 84-S/$630.

TYPE: MS and PR-63 type coins appear to be topping many want lists for the time being. In numerous cases, 63's are bid only 20% of 65's. Many dealers feel this gap is too wide and 63's are a good buy in this market. And if you think buyers are selective for 65's, look around, they'll be just as fussy for 63's. When paying top dollar in any grade, dealers want strictly graded coins with no problems.

GOLD: U.S. gold is strong in all grades, but it remains especially so in mint state. Since MS-65's are so difficult to locate, it seems that many of the gold investment houses are concentrating on MS-63's. It doesn't hurt to reemphasize the fact that an MS-63 gold coin should be very pleasing to the eye.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $329.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Will be free of bag marks, may show only a bit of weakness of strike, should have full eye appeal. Most are well above average in this

MS-63 (CHOICE UNCIRCULATED) Will be minimally bag marked, may show only a bit of weakness of strike, should have full eye appeal. Most are well above average in this

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63, but with the additional feature of deep mirror prooflike surfaces both sides.

BUYING U.S. PROOF SETS

We need large quantities of choice quality proof sets. We can offer the following high prices:

ANNUAL INVENTORY CLEARANCE SALE

It is time once again to clear out some of the stock boxes to make room for new inventory that is continually coming in. Coins certified and graded by the ANACS will be indicated with one asterisk (*) – coins that have been certified and graded by Numismatic Certification Institute will be marked by two asterisks (**) – coins that have been certified and graded by us will not carry any notations but will carry the very same guarantee as to authenticity and grading as the others. As those of you know that have purchased coins from me in the past, my grading standards are recognized as among the most strict in the industry. Most items are one of a kind, but we do have some multiples below, however, it would be best to list a second choice on your order in case the coin you are ordering has been sold. If no second choice just state so. All coins carry a complete money back guarantee.

HEAVY BIDDERS SUPPORT SUPERIOR ACTION

Heritage Auction Anticipates Large Audience

The Market in Depth

Original rolls of Morgan dollars are about as weak as they've been in a long time. The high prices which brought out several original bags at the ANA are markedly lower as dealers display several unsold rolls in their showcases at most of the recent shows. Such was the case at the San Diego Coin Show this past weekend. Many dealers refuse to sell their rolls at losses, while others just buy and sell at the new levels. This isn't to say that premium rolls will not sell; they will. But, the larger percentage of the coins must be MS-63 for the rolls to command over bid. If the rolls have been "picked", which means the premium coins have been taken out and substituted for other original coins out of original rolls, then the rolls will not bring the higher prices. The hidden reason for quantities being a glut on the market at this time, is that some major companies have bought back large quantities of rolls and are now shifting their customers to other areas of the market, predominantly, U.S. gold.

Mid-American Rare Coin Auctions, Inc., conducted the over 1400 lot sale at the San Diego Coin Show. A few of the more active highlights are as follows:

Denomination	Cataloguer's Grade	Price Realized
1795 Flowing Hair Bust $	AU-55/55	$15,950
1882-S Morgan $	Superb MS-67/67	$ 1,072
1884-CC Morgan $	Superb MS-67/67	$ 1,100
Elgin Commem	Superb PR-67/67	$ 5,500
Oregon (1926-S) Commem	Superb MS-67/67	$ 2,420
Pilgrim (1920) Commem	Superb MS-67/67	$ 990
York Cemmem	Superb MS-67/67	$ 1,375
1905 $2½ Gold	Gem MS-65/65	$ 4,675
1927 $2½ Gold	Choice MS-63/63	$ 1,045
1901 $5 Gold	Choice MS-63/63	$ 1,320
1908-D $5 Gold	Choice MS-63/63	$ 2,310
1874 $10 Gold	Gem PR-65/65	$28,600

Results of this auction indicate that U.S. gold coins and commems remain very active at auctions and coin shows and continue to sell well to investment clients.

This week will be a good indication of whether the current market can support itself without an influx of fresh material. It seems that some major dealers are tired of seeing the same old material. Prices seem strong at current MS-65 levels, but it's apparent that dealers will not buy loosely graded coins at these levels. When fresh material surfaces it is quickly sold, two maybe three times on the bourse floor. This is expected to continue this week at Long Beach. The Heritage Auction is expected to draw a sizable crowd to bid on over 1900 lots. Highlights will be reported next week.

The "copper fanatics" were in heaven as the Superior Auction began Monday night with over 1000 lots. Those who collect by variety created some very active bidding and most prices realized were above bid levels and reflected interest by Sheldon, Newcomb, and Breen varieties. This is probably the broadest collector base in our industry. On the contrary, of the 102 Colonial lots, most were noticeably underpriced in relation to rarity. We will have specific highlights in next week's issue.

This Week's Market

CENTS: Although some dealers are buyers of Lincoln rolls (BU and circ.) most only buy when rolls are heavily discounted. This week finds the 1946-S roll lower in BU.

NICKELS: BU Jefferson rolls remain soft except for a few selected dates: 1939-P, 40-D, S, 41-S, and 52-P & D, are all higher this week. These increases are the result of one infrequent bidder.

DIMES: Mercury dimes maintain their active status as fresh deals are virtually impossible to locate. Dealers are persistent in their search for "unpicked" rolls. BU Roosevelt dimes are not soft, but activity appears at a standstill for the time being. The 1959-P roll is higher at $51.50.

QUARTERS: BU rolls of Washington quarters are only occasionally offered lately. Interest seems minimal. In fact, the 1946-S and 47-S rolls are lower this week in contrast to this usually up or level market.

HALVES: Common date gem W.L. halves are still a hot item on many want lists. These changes will be reflected on next week's Monthly Summary. Original W.L. half rolls are consistently wanted at bid and higher. The higher buyers still cannot locate more than just a few rolls in any one deal. This week finds several plus signs for these elusive rolls.

DOLLARS: The excess supply of original BU dollar rolls has caused bids to slip on many dates. The common rolls are now bid $800 while the 'S' mints are bid $1325. The Long Beach Show will be a very good indicator of where price levels will rest.

MS-65 dollar prices are maintaining their highs as dealers continue their anxious search for quantities at current levels. In contrast, NCI graded dollars in MS-65/65 consistently trade at 45% of bid and in some cases a little higher. For example, one dealer offers 1881-S dollars at $250 or $225 for 10 or more of the recently graded NCI papered dollars.

PROOF SETS and MINT SETS: Weakness is obvious in the 1961-64 proof sets. Several lots are offered daily at lower levels, while the buyers who usually support this market have lowered their buy prices.

COMMEMORATIVES: Olympic $10 gold coins in proof are not showing any signs of slowing down. It is difficult to pinpoint how many are traded each week, but obviously the buyers cannot locate enough. One interesting note: Last week a mini hoard was reported; twenty coins in one lot.

XF/AU commems (gold and silver) have taken over the hot seat. Several buyers are looking for quantities of nice XF/AU specimens. MS-65 commems are still quite active at current levels and as already noted, when they are MS-67, the price has no top.

TYPE: Type coin prices are at a virtual standstill, but buyers are quite active at current levels for specific issues in mint state and proof 60-63. This area is expected to be very active this week in Long Beach.

GOLD: U.S. gold coins remain very strong and many denominations are even higher. But with the higher prices problems can occur. One of the higher buyers of MS-60 thru MS-64 has just lowered his buy prices contrary to the fact that he needs coins very badly. His reason: Many dealers are sending him so many coins which are improperly graded that he doesn't have time to go thru all the packages. He is definitely tired of the "shots" being taken.

U.S. GOLD. (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $323.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE. The prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES

$35.00 per column inch. 2 column inches maximum.

Advertising space is limited, ads will be placed in first possible edition.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

MS-60 (UNCIRCULATED) Strictly uncirculated showing no evidence of rub or friction, although an abundance of further qualifications are necessary. It will be bag marked and/or heavily abused, may not have full lustre.

MS-63 (CHOICE UNCIRCULATED) Will have minor bag marks, may show only a slight dreariness of strike. Should have full lustre. These are well above average coins.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely nicer than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 but with the additional feature of deep mirror prooflike surfaces both sides.

Introducing: **The Rare Coin Exchange**
— a revolutionary new concept for
investors and traders of rare coins . . .

Now you can trade rare coins just like stocks and bonds . . .

That's right! No more long, tedious auctions . . . no more waiting months and months to sell a coin . . . no more guesswork regarding your coins' liquidation value . . . no more grading discrepancies . . . no more bargaining with reluctant buyers. *In short: No more hassles and no more hold-ups when you buy and sell rare coins. With* **THE RARE COIN EXCHANGE** *you can now trade rare coins just like you'd trade stocks on the Stock Exchange!*

The **RARE COIN EXCHANGE** is a revolutionary new concept patterned after trading principles that have proven successful on both stock market and commodities exchanges. It allows you to trade rare coins *sight unseen*, yet in a free, visible, open market ensuring fair price.

The **RARE COIN EXCHANGE** consists of three distinct elements: 1) An exclusive certification program that *guarantees* both grade and price for your coins. 2) Listing on the **RARE COIN EXCHANGE** for any certified coins you wish to offer. 3) Listing in ***Coin Quote,*** our exclusive "market maker" publication for rare coin investors and traders. Here's how it works for you in three easy steps:

1 First, in order to trade on the **RARE COIN EXCHANGE**, you must have your coins certified as to their present grade and condition by our experienced certification staff. Coins are certified by combining their traditional numeric grades with the five market-related characteristics of *appearance, mark, strike, lustre,* and *color. Certification allows traders to know* ***exactly*** *what they're buying from you through the Exchange, without having to actually view the coins.*

2 Once your coins have been certified, they can be listed for sale on the Exchange. No more auctions. No more long sales pitches to reluctant buyers. Interested buyers simply pick up the phone and make the trade (eg., purchase your coin) . . . much like they would with stocks, bonds or other investment vehicles. *It's that simple!*

3 In order to help you achieve *maximum exposure* for your coins, we list the highest bid and the lowest offer for each certified coin traded on the **RARE COIN EXCHANGE** in ***Coin Quote,*** our exclusive "market maker" price reporting sheet for traders. ***Coin Quote*** is mailed up to *40 times per year* to all **RARE COIN EXCHANGE** traders, so your coins can be "seen" by literally thousands of eager buyers as often as three times a month! In our opinion, ***Coin Quote*** provides the best exposure possible today for dealers with coins to sell. And since all Bid-Ask ranges in ***Coin Quote*** reflect *real* transactions (just like on the stock exchange), you can track the price changes of your rare coins, and determine within close tolerance *their actual liquidation value* at virtually any point in time!

Questions & Answers . . .

Q: How much does it cost to list my coins on the **RARE COIN EXCHANGE?**

A: *Practically nothing.* There is a small certification fee for each coin submitted, which runs 4% or less of the owners stated value. Your coins can then be listed for sale on the Exchange at no further cost to you whatsoever!

Q: What are the commissions charged?

A: The lowest in the industry, only 5% on actual transactions.

Q: How long will it take to certify my coins?

A: *Five days!* That's the fastest turnaround time in the industry.

Q: Who certifies my coins?

A: Our team of numismatic experts, each with a minimum of *ten years* industry experience.

Q: How is the actual *pricing* of my coins handled?

A: The bid-ask ranges listed in ***Coin Quote*** reflect *real buyers and sellers.* If you wish to sell a coin within the current bid-ask range, it can be sold on the Exchange almost immediately. Or, you can use ***Coin Quote*** to track the price movements of your certified coins, selling only when their bid-ask ranges have been pushed high enough by traders to price levels you're satisfied with. *Just like on the stock exchange!*

Q: Can I trade any coin on the **RARE COIN EXCHANGE?**

A: No, just as every stock isn't traded on the NYSE only coins with sufficient demand and trading volume are listed.

Q: How do I get started?

A: *You can receive more information about trading on the* **RARE COIN EXCHANGE** *by calling Mary Thompson on our* ***toll free*** *Exchange Hotline. Mary will be happy to answer all of your questions personally. She will also send you as many Certification Request Forms as you'll need in order to have your coins traded on the Exchange. Just call Mary today at* ***1-(800) 621-1339, ext. 222.*** *From Illinois, please call* ***1-(312) 549-2227, ext. 222.***

MS-65 PROOF LIKE (GEM UNCIRCULATED PROOF LIKE) Will exhibit the same characteristics as the MS-65 --but with the additional feature of deep mirror prooflike surfaces both sides

MS-67 & MS-67 PROOF LIKE (SUPERB) Will be 100% fully struck --and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Prices for single BU sets in this chart are for "typical" coins. These usually average MS-63 --but may also include some MS-60 and MS-65 examples. For strictly graded MS-65 single sets, use prices for individual issues as listed in the Monthly Summary. Prices for BU roll sets in this chart are for typical original rolls of each date and mint mark

U.S. GOLD COINS LEADING THE MARKET

Low-End M.S. Dollars Remain Weak

The Market in Depth

The Long Beach Coin Show was well attended by dealers and the public alike. Last week gold and silver bullion made strong advances. (This was unlike most Long Beach Shows where bullion usually drops just prior to or during the show). With this combination, one would have expected the show to be one of the best of the year. For all intents and purposes, such was not the case. Although not spectacular, the show was very active and consistent for most dealers. The main reason for the lack of flare, there simply was not enough fresh material. Most of the dealers had the same old inventory they've carried around since ANA. The following is a concise summary of activity:

Series	Quality	Activity
U.S. Gold	AU-MS-65	Hot!
Silver Dollars	MS-63 & better	Saleable if priced fairly
Certified Coins	MS-65	Strong demand
W.L. Halves	Original rolls and MS-65	Hot!
Silver Dollars	MS-60/MS-62	Available, cheap
Type Coins	MS-65	Mixed somewhat lower
Type Coins	MS-60/63	Active, sought after

All in all, the show was a puzzle to many. The dealers not afraid of hard work did fairly well as long as they stayed active. Those who sat behind their tables waiting, still are. There were more dealers than usual at this show who said they did not do as well as expected. Many dealers are extremely cautious at this point and it would seem that if any volume of business is to be done in the near future, it would have to be in less than MS-65 material. This is due to a lack of quantities of true gem coins.

The Heritage Auction received some very spirited bidding, especially for the U.S. gold lots. This appears to be a very solid market as lots were awarded to numerous buyers. This is in contrast to some auctions where a few bidders dominate the buying. The auction realized approximately $1.7 million. The following are just a few of the highlights:

Denomination	Cataloguer's Grade	Price Realized
1887 $1 Gold	PR-63/63	$ 3,575
1889 $1 Gold	MS-63/63	$ 1,897
1878 $3 Gold	AU-55/55	$ 5,830
1929 $20 Gold	MS-60/60	$ 8,030
Connecticut Commem	MS-65/67	$ 1,100
Lincoln Commem	MS-65/65	$ 1,430

Active bidding was also seen at the Superior Auction last week. Time and time again bidders in the audience shouted out their bids, sometimes doubling the previous bid. The following highlights were taken from the Superior Auction.

Denomination	Cataloguer's Grade	Price Realized
1776 Continental Dollar (pewter)	VF	$ 2,530
1793 Wreath Cent	AU-50	$15,950
1934-S Peace Dollar	MS-63	$ 3,960
Grant Commem (no star)	MS-65	$ 2,420
1855 $1 Gold TII	MS-63	$15,950
1913 $2½ Gold	Gem Matte PR-65	$13,750
1913 $5 Gold	Gem Matte PR-65	$15,400
1913 $10 Gold	Gem Matte PR-65	$24,200
1913 $20 Gold	Gem Matte PR-65	$37,400

Complete prices realized can be obtained from the respective companies.

This Week's Market

CENTS: Two uncirculated rolls of 1931-S Lincolns were sold in the Superior Auction at $2255 and $2200. Also selling were two original bags of 1943-S cents. These realized $5500 each. There was a rather large number of BU rolls offered this past week at lower prices; these are reflected on page three.

NICKELS: BU Jefferson rolls were somewhat unattended this past week although gem Buffalo singles were in strong demand at Long Beach. Specifically, a gem 1926-D brought $3150 on the bourse floor. That was dealer to dealer. Other late date specimens were in demand if graded properly.

DIMES: Original Mercury dime rolls were very popular at auction. The late date rolls brought well over bid. There are beginning to be a few believers in the MS-65 (no bands) market. Long Beach found more buyers of this often ignored series and grade.

QUARTERS: BU Washingtons are not receiving much attention in the way of higher bids, but on the other hand, nobody is out there trying to give them away either.

HALVES: Gem W.L. halves are now bid $350 in the Monthly Summary and bidders cannot seem to get enough. There were several buyers at Long Beach at these levels and in specific instances, even higher.

DOLLARS: If you haven't guessed by now, it's real obvious to those having attended the Long Beach Convention, common BU dollars, in MS-60- MS-62, are in the dumps. There is very little support and it may take some time to find solid ground. As one might expect, this is having a tremendous effect on original rolls. Since MS-63, 64, and 65 have been marketed so extensively over the past year, one rarely finds anything better than an MS-63 (and those rarely) in rolls anymore. Common 'P' and 'O' mint rolls have dropped to $760 each; 'S' mint rolls haven fallen to $1275 per.

PROOF SETS and MINT SETS: The weakness continues for 1961-63 proof sets. There are more sellers than buyers and the buyers are in a bargain hunting mood. Mint sets continue their slow pace, although an occasional early set may be wanted at over bid.

COMMEMORATIVES: Judging by the absence of plus signs for commems one would think this series is dead. Such is not the case. This series is very active within the bid/ask ranges in XF thru MS-65. There is an absence of higher bid prices, but there is no lack of activity by the many buyers for properly graded coins. At Long Beach, a gem Sesquicentennial with flash brought $2000, while a gem 1939 Oregon-PDS set with beautifully matching colors (original) realized $5500.

TYPE: Proof and MS-60 thru 63 material seems to be stirring up some interest. There are not a lot of dealers showing interest yet, but the ones who do are serious buyers. Proof and MS-65 type suffered a little as most of the buyers have dropped their prices 10% to 20%.

GOLD: This was most assuredly the most active area of the market at Long Beach. The auctions also supported this fact. AU and slider $1 TII gold continually bring from $2000 to $5500. It is truly amazing to see some knowledgeable dealers pass coins at $2500 that eventually bring $3500 dealer to dealer.

U.S. GDLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at $327.00 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-63 coins may have minor marks or a slight weakness of strike—they are "choice" rather then "gem".
MS-65 coins are well struck with a minimum of abrasions—they must be brilliant or have original toning.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the later rolls tend to be dark---these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices---particularly the pre-1941 issues. Washington rolls---dull or "put together" bring lower prices. Gem full-strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the Monthly Summary.

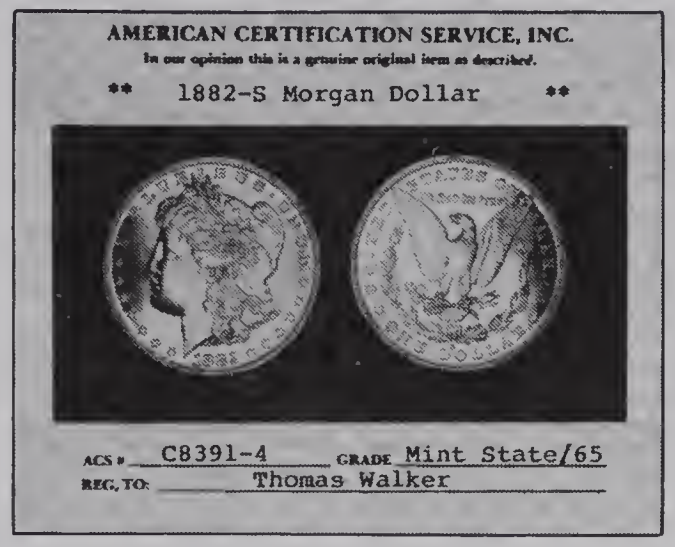
MS-60 (ABOUT UNCIRCULATED) Will show signs of light wear on the high points of the design, but have full luster. Should have only a few small contact marks, but these are not obtrusive. Average eye appeal.

MS-63 (CHOICE UNCIRCULATED) Will show only light wear on the high points of the design, but have full luster. Should have only a few small contact marks, but these are not obtrusive. Above average eye appeal.

MS-64 Will be sharply struck and have full lustre (brilliant or original toning). May exhibit some field distractions, but none major. May have a few minor cheek contact marks. Definitely better than an MS-63. Must have eye appeal.

MS-65 (GEM UNCIRCULATED) Will be sharply struck and have full lustre (brilliant or original toning). Will exhibit no major distractions in the fields and will exhibit virtually clean appearing face and breast feathers. MS-65's are only a small (but varying) percentage of available uncirculated specimens of any date. Must have eye appeal.

MS-63 PROOFLIKE (CHOICE UNCIRCULATED PROOFLIKE) Will exhibit the same characteristics as the MS-63 — but with the additional feature of deep mirror prooflike surfaces both sides.



INVESTORS CHOOSE
CERTIFIED COINS BY ACS

Because American Certification Service, Inc. has gained a national reputation for accurate grading that . . . REALLY COUNTS!! Over 90% of our thousands of submissions are received from private investors who know the value of ACS certified coins and refuse to accept anything less.

WORLDWIDE RECOGNITION

Through an unprecedented endorsement, one of the world's largest insurance carriers will issue insurance against all risk of physical loss or damage for every coin certified by American Certification Service, Inc.

Insuring your coin acquisitions for their FULL VALUE - AS GENUINE - and in the SAME GRADE AS CERTIFIED, ACS is the only grading bureau to ever receive international recognition by this London based institution.

While becoming the industry's most reliable grading bureau—ACS offers:

1.) Four color obverse and reverse photographs to unmistakably identify your coin with its certificate.
2.) Lifetime owner's registration—fully laminated—impossible to alter and transferable upon request.
3.) Grading and authentication is performed by eminent experts in our field—not a staff of trainees.
4.) ACS utilizes a specific numerical grading system (e.g. MS-65). ACS does not employ confusing and often misleading "split grades" (e.g. MS-63/65). ACS certification is in accordance with the lowest grade applicable. The only way to protect the consumer during times of constantly tightening grading standards.
5.) All coins received are certified and returned by registered/insured mail within 10 working days after their receipt.
